

## **New Dog Park**

### Community Consultation Findings

October 2017

## 1. Introduction

The City of Marion proposed to develop two dog parks in response to community feedback obtained through the development of the Animal Management Plan 2012-2017. The first dog park was officially opened at Reserve Street Reserve, Trott Park in September 2016.

This report summarises the community consultation undertaken for a second dog park within the Council. The purpose of the community engagement was to determine the community's level of support for a new dog park and seek comment and feedback for possible locations, their preferred size of dog park and key features to be included in the design.

## 2. Executive Summary

Council received over 200 responses to the online engagement and the community showed strong support (98%) for the development of a new dog park.

The majority of respondents 60.3% (123) own or care for medium/large dogs and 37.7% (77) own or care for a small dog.

The most popular locations for current dog exercise within the City of Marion were highlighted as: Hazelmere Reserve, Reserve Street Reserve, Mitchell Park Reserve and Oaklands Estate Reserve.

Hazelmere Reserve received the highest response with 85 residents currently using this reserve, followed by Reserve Street Reserve with 28 responses. Respondents indicated that the main reason for using that particular reserve was for dog exercise and the location was close to their work or home.

The development of a second dog park within the City of Marion was overwhelmingly supported. 98% (198) of the respondents support the development of a new dog park with only 2% (4) not supporting the development of a new dog park.

Comments supporting the proposal included having a dog park with separate areas for small and large dogs, the importance of maintaining responsible dog behavior and the broader community and social benefits that dog parks can bring.

Comments not supporting the proposal included concerns with dog behavior and a preference to upgrade existing dog parks.

The majority of respondents 52.8% (121) would prefer a park with separate areas for small and large dogs, with 35.4% (81) preferring a park for all dogs in one area and only 7% (16) preferring a park for small dogs only.

The top three design features most important to respondents in were perimeter fencing (154), water tap (124) and rubbish bin (118).

In addition to the key items we suggested would be included in a dog park in question 6, the additional ideas from the community included dog agility equipment, lighting and toilets.

The top responses for a preferred suburb for a new dog park included Hallett Cove, Marion and Oaklands Park.

The most popular suggestions for a reserve location of a new dog park were Cadell Street Reserve, Scarborough Terrace Reserve and Hazelmere Road Reserve.

### **3. Consultation Program**

The consultation included a survey, location map and forum. The consultation period was 4 weeks with the survey open from 15 August to 15 September 2017. The survey, location map and forum was made available online at [www.makingmarion.com.au/new-dog-park](http://www.makingmarion.com.au/new-dog-park).

The consultation was conducted in the following ways:

- The survey was promoted on the City of Marion website.
- A survey link was emailed to the City of Marion Parks and Playgrounds Newsletter distribution list.
- Social media posts were placed on the City of Marion Facebook page.
- Signs were placed on site at both Reserve Street Reserve, Trott Park and Hazelmere Reserve, Glengowrie.

### **4. Consultation Overview**

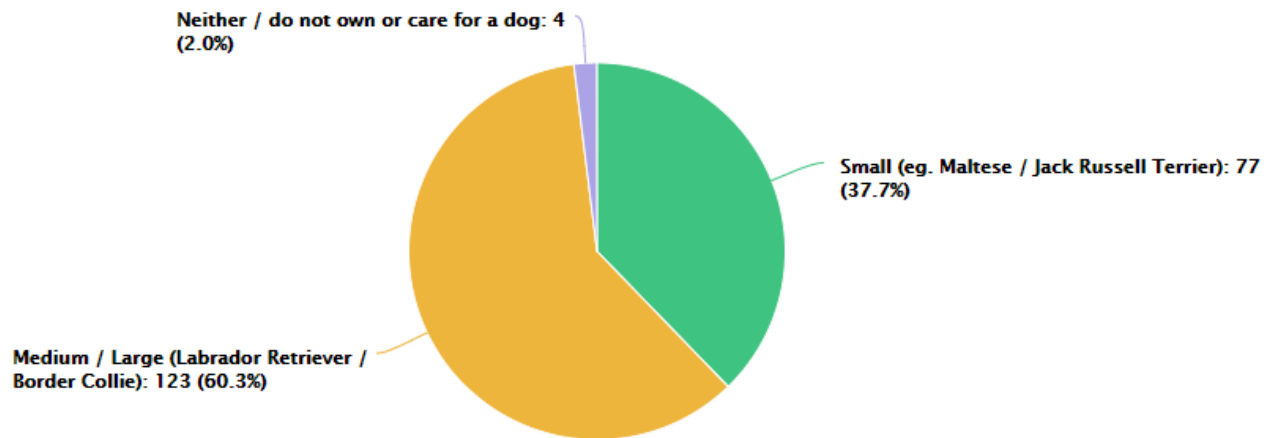

As a summary, during this 4 week consultation period Council received:

- 204 Surveys
- 4 Forum contributions
- 30 Map contributions

A full summary of all responses to each question is provided within this report. Responses have been listed as worded by the respondent. For privacy reasons, respondents' details have not been included.

## 5. Consultation Findings – Survey Responses

**Q1. Would you describe the dog you own (or care for) as:**

### Summary of results:

The pie chart above illustrates 60.3% (123) of the 204 respondents own or care for medium/large dogs and 37.7% (77) own or care for a small dog.

**Q2. To which reserves do you currently take your dog?**

The following question was to determine which reserves residents currently take their dog/s to. This question was not limited to within the City of Marion and could provide answers to various other locations. Responses are provided in the following tables.

Reserves within the City of Marion	Responses
Hazelmere Reserve	85
Reserve Street Reserve	28
Mitchell Park Reserve	8
Oaklands Estate Reserve	8
Scarborough Terrace Reserve	7
Edwardstown Oval	3
Roy Lander Reserve	2
Marion Sports Oval	2
Sturt Creek Linear Trail	2
Hallett Cove Coastal Trail	2
Cadell Street Reserve	2
Hamilton Reserve	1
Field River	1
Plympton Park Oval	1
George Street Reserve	1
Dumbarton Reserve	1
Warriparinga Wetlands	1
Glandore Community Centre	1
Glandore Oval	1
Sixth Avenue Reserve	1
Alison Avenue Reserve	1
Hugh Johnson Reserve	1
Hessing Reserve	1
Quick Road Reserve	1
Alpine Reserve	1
Gully Road Reserve	1
Capella Reserve	1
Heron Way Reserve	1
Breakout Creek Reserve	1
Princess Elizabeth Playground	1

Other reserves outside of the City of Marion	Responses
West Torrens Dog Park	11
Minkarra Park Reserve	6
North Adelaide Dog Park	6
Dover Square	4
Bowker Street Oval	3
Aberfoyle Park	3
Hallett Cove Beach	2
Brighton Beach	2
Tedder Reserve (Lockleys)	2
Weigall Oval (Plympton)	2
CC Hood Reserve Mitcham	2
Seacliff Beach	1
O'Sullivan Beach	1
O'Halloran Hill Conservation Park	1
Christies Beach Dog Park	1
Orphanage Park	1
Quandong Street Reserve	1
Cecilia Street Reserve	1
Glenelg Beach	1
Stirling	1
Glenside	1
St Peters Dog Park	1
Broadway Brighton	1
Aldinga	1
Hazelwood Park	1
Woodcroft	1
Kurralta Park	1
Blackforrest, Daws Road	1
Brighton Oval	1
Tramway Park Walking Path	1

**Summary of results:**

The most popular locations for dog exercise were highlighted as: Hazelmere Reserve, Reserve Street Reserve, Mitchell Park Reserve and Oaklands Estate Reserve. Hazelmere Reserve received the highest response with 85 residents currently using this reserve, followed by Reserve Street Reserve with 28 responses.

### Other comments received:

- I find the Glengowrie Dog park to be not very good as owners don't supervise their dogs and we have had a couple of incidents with aggressive dogs.
- I live closest to the Sheidow Park one but am hesitant to use it as there are too many incidents with dogs fighting/biting.
- None (x4).
- As many as possible.
- Oaklands road- rarely.
- None suitable, either too far as in Hazel mere or Trott Pk has no toilets.
- None as there are none close. We previously took our dogs to oaklands rd reserve.
- i used to go to the oaklands road park but due to problems with bigger dogs hurting my smaller ones i have stopped going , i wish that park was cut down the middle , small dogs on one side big dogs on the other.
- None as none close - used to visit on in Brighton.
- JUST UP AND DOWN OUR ONLY FEW OF FLAT STREETS.
- too far away :(.
- Oaklands Park but have since taken my dog to Dover square as there are too many precious dog owners at the oaklands park dog park.
- None because they are not secure enough. My dogs can fit through the fences.
- Oaklands road hazelmere reserve and Trott park dog park sometimes. The Trott park one is really muddy every time I got there and the water fountain wasn't working either.
- None at present, just the beach.
- I AM UNABLE TO TAKE MY DOG TO A DOG PARK SHE IS A GREYHOUND IT WOULD REALLY NICE IF WE COULD HAVE A GREYHOUND PARK. ALL OTHER DOGS ARE ALLOWED OFF THEIR LEASH TO HAVE A RUN OUR DOGS AREN'T. MARION COUNCIL SHOULD BE A LEADER ON THIS
- Mitchell Park for dog obedience.
- Trott park but only when no big dogs are there.
- I don't.
- Beach.
- Dover Square in South Brighton. Excellent park but has been seriously vandalised by local senior resident who hates dogs.
- Trott Park outside perimeter.

### Q3. Why do you use the above reserve/s?

#### Summary of results:

Respondents indicated that the main reason for using that particular reserve was for dog exercise and the location was close to their work or home.

#### Comments received:

- Spilt size dog park
- Pleasant environment. Plenty of space so dog can get enough exercise. Variety
- Can only use small dog areas as large dogs hassle my dog
- Because the park is specifically for small dogs.
- It's the only one around
- It's one area not like Trott park which seems disjointed
- its fenced.
- Dogs getting under fencing.
- Proper fencing
- Personal training/ exercise
- Because scared of big dogs at Oaklands rd dog park
- It is big, my dog loves running. It is flat so you can always see your dog. It is fenced (could be better)
- NOT ABLE TO AS I HAVE A GREYHOUND
- I go during the day and there is usually not many big dogs and not very busy, usually only 3-4 people. Everyone are very nice and friendly. It is a very pleasant time.
- Both locations have double gates and high fencing
- Toilets for people needed. Water/dog poo bags and bin/needed seats and shade. 40C.

**Q4. Do you support the development of a new dog park in the City of Marion?**

**Summary of results:**

The level of support for a new dog park is overwhelmingly supported within the Council. The graph above illustrates that 98% (198) of the respondents support the concept with only 2% (4) not supporting the development of a new dog park.

Comments supporting the proposal included having a dog park with separate areas for small and large dogs, the importance of maintaining responsible dog behavior and the broader community social benefits that dog parks can bring.

Comments not supporting the proposal included concerns with dog behavior and a preference to upgrade existing dog parks.

**Some of the positive comments included:**

- *A new fenced dog park would be great. Never have too many.*
- *it would be great to have another dog park in the city of marion to help with dog socilisation and enrichment.*
- *It would be great to have more options for some variety - both for owners and dogs.*
- *Yes fenced parks are fantastic and are a great way for social gatherings with other dog communities. I think it outweighs the negatives. Shelter and seating is a must so we can use the facilities for elderly and in winter!*
- *would love to use one.*
- *A dog park is badly needed.*
- *Much needed. Big and small park.*
- *Fabulous idea, much needed.*
- *The more parks the better for every dog owner.*
- *I absolutely do. A great way for dog owners to swap advice and make sure that the dogs in the neighborhood are well socialized and less likely to be scared or aggressive.*
- *I strongly support the creation of enclosed dog parks, with separate sections for large and small dogs.*

## **All comments not supporting the proposal:**

2% of recipients who opposed the proposal for a new dog park provided the following comments:

- Please do not put one anywhere near a children's playground/swimming pool. My child has been frightened by large dogs off their leads on the way to/from dog park. Not all owners are aware of other people or care for the safety/fears of others.
- I have had several bad experiences with irresponsible dog owners at dog parks therefore refuse to use them now.
- I would like to see upgrades to the existing dog park at Glengowrie Oaklands road. This includes lights, sally port gates, shelter in middle of park, another water point, obstacles and training structures, better drainage, water misters.
- Money would be better spent on ensuring dogs were obedience trained.

## **All comments supporting the proposal:**

98% of recipients who supported the proposal for a new dog park provided the following comments:

- A new fenced dog park would be great. Never have too many.
- it would be great to have another dog park in the city of marion to help with dog socialisation and enrichment.
- It would be great to have more options for some variety - both for owners and dogs.
- Yes but community members need to be guided with dog / leash etiquette, must be with their dog, must not bring dog if known for aggressive behaviour or mix large with small dogs.
- One around Dover Gardens would be great.
- Many homes have dogs. To keep playign fields etc (for families) free of dogs and facees more apporpriate dog only facilities are imperative.
- Please do not put one anywhere near a children's playground/swimming pool. My child has been frightened by large dogs off their leads on the way to/from dog park. Not all owners are aware of other people or care for the safety/fears of others.
- I have had several bad experiences with irresponsible dog owners at dog parks therefore refuse to use them now.
- A dog park that has more things for the dogs to do would be good. Not just the large open space - which is brilliant but other things for them to do there would be great.
- Somewhere central please, close to Marion shopping centre , the heart of Marion.
- yes but keep the others ones still.
- Would love one in Hallett Cove. Reserved on Capella Drive is under utilised.
- Yes fenced parks are fantastic and are a great way for social gatherings with other dog communities. I think it outweighs the negatives. Shelter and seating is a must so we can use the facilities for elderly and in winter!
- I intend to get another dog soon and would love a dog park in Hallett Cove.
- Its a great idea.
- In Hallett Cove maybe a section of Pavana Pk or even the opposite side of that road ie Greta
- Need one closer to home. Live close to club marion, the poo bag dispenser is always empty. I always have my own that I purchase, but it annoys me that people don't pick up their pets.
- As long as you do a small dogs section and larger dogs section.
- Having more facilities closer to home would be good.
- Should be limited to small dogs. Definitely opposed to use by younger large dogs.
- The more people taking their uncontrollable dogs to a dog park, the less there will be to harass my well socialised and well behaved dog when we're waking on lead through the wetlands.

- please cater to smaller dogs with a closed in area for them only especially toy dogs like chihuahuas as they need exercise as well.
- Needs to be large enough for large dogs to run off lead, but allow for smaller dogs to feel comfortable.
- Would love a park with lights at night so that in winter we can stay after 5:30 without it being unsafe.
- Need one away from snake habitated area - both my dogs have been treated for brown snake bites.
- Need more dog parks with lawn and large space.
- Parks you have so far are great more are needed.
- There is a great area for the new Sogn park off of Lawson avenue in morphettville. The reserve currently doesn't get used for anything and is a really good size.
- I would like to see upgrades to the existing dog park at Glengowrie Oaklands road. This includes lights, sally port gates, shelter in middle of park, another water point, obstacles and training structures, better drainage, water misters.
- New and in addition to existing not in replacement of existing.
- Most dog owners appreciate fenced dog parks -(safety for all) dogs socialising, exercising. I like a toilet and a 3 sided shelter for me and a shower hose for my lab which enjoys mud! Poo bags, bins are great , exercise posts,poles for agility.
- Cadell Street reserve would be perfect as there are many people with dogs in the neighbourhood and no dog park within a reasonable walking radius.
- The more dog parks there are in the City of Marion the better.
- With housing blocks being smaller, it is important to have dog parks for exercise of both the dog and the owner.
- be nice if it is at hallett cove - too many hilly streets.
- Needs to have small dog area as well.
- Yes Dogs need exercise and socialisation to be a good dog.
- would love to use one.
- Some people complain about dogs in local spaces, so a specific place is perfect. Exercise should also contribute to quieter dogs at home.
- A dog park is badly needed.
- Much needed. Big and small park.
- maybe provide some obstacle activities for the dogs to run in and around on.
- I haven't used dog parks in the past as some owners don't understand that not all dogs get along. It would be great to have a section for smaller dogs where owners can provide closer supervision.
- There is not enough areas in this council area to run your dog off leash.
- Would like to see an Agility course in place in the new Dog Park.
- Need mashing around the fences so small dogs can't get out.
- Very necessary for pets wellbeing ie bark less with exercise.
- Fabulous idea, much needed.
- Dog park are only if the owners of dog pickup their poos. I went to the one on Oaklands Rd and wouldn't take my dog there again because of the poos.
- The West Torrens Dog Park is a boon to small dog owners and is a great community asset. Marion Council needs to follow their prototype.
- I'd like to see a new dog park around Seaview Downs. This was my former living area. Very limited to dog free parks/areas.
- I find Hazelmere Reserve to be scary for my dog as it is so large and so chaotic.
- No fancy landscaping . Just big, flat, green and well fenced.
- Would be great to have another option available.

- Dog parks have become really popular and it's a great way for dogs to run around and burn energy off lead. It's also excellent for socialisation between dogs!
- I will not use a park with mix small and large dogs due to the attack risk. My dog was attacked at the Adams road park and I also saw another dog attacked on another day.
- Must be big and small dog segregated.
- ALL OTHER DOGS CAN GO OFF LEASH AT THE BEACH ETC OUR DOGS LOVE TO RUN THEY AREN'T ALLOWED.
- I think most of the lovely parks around should be fenced so you could walk your dog in them, so many parks are hardly used. Yes a safe space would be great.
- Money would be better spent on ensuring dogs were obedience trained.
- Dedicated area that doesn't share with other sports etc.
- seacombe gardens.
- It would be ideal if this park could cater to greyhounds, given their legal requirements. Either by having a smaller area with higher fencing or having leash exemptions. My greyhound dislikes dog parks as he is forced to be on leash and others aren't.
- The more parks e better for every dog owner.
- Near Marion sports oval/s.
- Closer to home.
- I absolutely do. A great way for dog owners to swap advice and make sure that the dogs in the neighborhood are well socialized and less likely to be scared or aggressive.
- With oaklands crossing redevelopment a dog park south of the crossing would be beneficial to reduce the need to use the crossing during construction.
- With the move to smaller home blocks in the Mullawirra Ward we need more dog parks.
- I strongly support the creation of enclosed dog parks, with separate sections for large and small dogs.
- Dog parks are a very important social venue. We currently meet with several widows whose only companion is their dog.
- So sick to death of responsible dog owners being subjected to the same rules as the worst dog owners. The bullying and intimidation decent dog owners are subjected to is obscene.
- Would still like Hazelmere reserve to be kept as a park for exercising dogs off lead. Having two energetic dogs I am grateful for this park. We don't use Breakout Creek Reserve as often as I'd like as it isn't fully fenced.
- in parkholme near swimming centre.
- Big dogs ( German Shepperd, Doberman, Huskies) must be separated of small ones (Jack Russel, Toy Poodle, Maltese) , a 30 or 40 kilogram Pitbull can not play in the same area where a Maltese wants to sniff poppies.
- More older people in court yard houses (no land) rental places no land. Just no land anymore.

**Q5. What type of dog park is needed?**

**Summary of results:**

The pie graph shown indicates that the majority of respondents 52.8% (121) prefer a park with separate dog areas, 35.4% (81) prefer a park for all dogs in one area and 7% (16) prefer a park for small dogs only.

**Comments:**

- Depends if medium dogs are small or large, don't think size matters but need to wean out aggressive dogs that should be in parks unmuzzled.
- One with separate areas for small, medium and large breeds.
- A park with some agility obstacles, large rocks etc - not just a bid open oval area. It needs to be interesting for people and dogs!
- 3 space, large only, small and mixed.
- Secure fencing (NO gaps) suitable for small dogs and puppies to be let loose. Some people do let their large dogs run wild while they chill out, which is a bit annoying sometimes. What about an exerice/agility course for dogs - help with obesity?
- I don't mind. But a large space to walk around would be ideal.
- A GREYHOUND PARK EVEN IF ONLY A RUN 100 METERS BY 20 METERS THE COUNCIL CAN SURELY FIND SPACE.
- Large dogs or staffy's should have their own space, they can be so out of control. I would like to see a park for small dogs and elderly dogs of any size, as they are very slow and fragile. This park could also be good for young pups 1st visits.
- Parks for proper and organised obedience.
- With a gated playground for children too.
- small dogs only park, especially older arthritic ones.

**Q6. The key features we are suggesting are: (please select 3 features that are most important to you or your dog).**

#### Summary of results:

The top three features most important to respondents were perimeter fencing (154), water tap (124) and rubbish bin (118).

#### Q7. Other suggested features / Comments

A variety of other items were suggested by the community as listed below.

Other suggested features	Number of responses
Dog bag dispensers/bins	20
Dog agility equipment	14
Irrigated turf	13
Drink fountain with dog bowl	13
Shelter/shade	11
Lighting	10
Toilets	10
Landscaping	3
Dog wash area	3
Seating	3
Carpark	3
Double gate	2
Sandpit	2
Café/coffee van	2
Cctv	2
Dog pool	1

## Summary of results:

In addition to the key items we suggested would be included in a dog park in question 6, the additional suggestions from the community included dog agility equipment, lighting and toilets.

### In addition to the listed items above, the following comments were received.

- Maybe a separate puppy area.
- Would it be possible to allocate a suggested roster/schedule for parks? Small dogs 2 days, large dogs 2 days, dog clubs 2 days, 1 day open or something similar and have it sign posted for community awareness. All dog parks could introduce this.
- Ball free. Ball play is antisocial, causes aggression and owners have hit my dog trying to get their ball, when I take my dog to socialise with other dogs, not chase a ball and risk injury to him.
- Lighting at night. Dog parks get little use in winter because it is so dark so early. It would also be good for summer as it's much cooler once the sun goes down on very hot days.
- Good turf management - reserve street is a mud pit.
- Less muddy area.
- Lighting for extended hours use.
- Double gate is essential to me. If there is no double gate at a dog park, I don't take my dog in.
- Dual human/dog drink fountain, solar lighting for the winter months.
- Shrubs and trees.
- Some agility activities, fresh drinking water, bag dispenser, trees.
- Maybe a couple of hours a week designated to only puppies- under 1 year
- Toilet, play area for kids near by, obstacles e.g. Tunnels, weave poles, poo bag dispensers, sand pit area, lots of grassy area, and plenty of room to run.
- Council monitoring dog behaviour.
- A playground on the outside that has its own fence so children can safely play.
- Clear signage regarding dog and owner behaviour.
- Something with a separated playground for people with children too.
- Don't have seats that encourage lazy owners to sit & play with their phone while their dog runs off unattended. Design needs to encourage people to keep moving along & watching their dogs interaction.
- Playground/activity/agility area for dogs.
- Dog wash area with taps / hoses and good drainage.
- Snake proof fencing if in area where snakes have been sighted.
- Snake proof fencing if possible.
- Lawn is critical not dirt or bark!
- Path around the perimeter.
- Please don't have a park solely for a particular size dog it's discriminatory!
- Lighting, obstacles, sandpit.
- Playground - needs to cater to families.
- Round pipes and logs for jumping over.
- 3 sided shelter, seats, toilet, carpark, drinking tap for dogs/humans, agility posts for training, poo bag rolls.
- There is enough open space to have a dog park as well as maintain open space and lawn on the other side of the park. The dog gate could even be located within the designated path space already in place.
- Shelter from elements, wind and rain.
- Water fountain with bowl, obstacle course/tunnels, weeds is an issue as you cannot collect dog poo.

- Dog bags, separate dog area, lighting.
- Obstacles for dogs (tunnels, ramp etc). Shelter/shade for seasonal conditions.
- Disposable poop bags and bins.
- picnic shelter areas and café.
- There are a lot of dogs who enjoy water, is it possible to have a shallow dog pool?
- It would be amazing to have a separate section for small dogs as some smaller dogs (including mine) freak out over bigger dogs.
- Composting, the usage of thousands of bags per year are a bad example of environmental management.
- Seating is great too, I see lots of older people sitting down. Shade to stand under would be great but not sure how you'd achieve that. Spread out parking so reversing cars aren't endangering dogs. No spaces that flood and get v. muddy - messy dogs.
- An all weather ground surface would be appreciated, after rain a muddy and water logged area is unpleasant.
- also provide poo bags near the bins, as most owners choose to leave behind.
- Area for people to use a coin operated dog bath and perhaps on the weekends or evenings, have a mobile coffee van or similar. Glandore especially has a great community spirit - lets try to bring people out of their homes and meet each other.
- Multiple bins and a tap and bowl system which can be easily emptied by dog owner if water is needing emptying.
- An Agility course on one side of park.
- Mashing so small dogs are secure.
- All items listed above are great. Hazelmere is our favourite as it is just one wide open space where they can meet/socialise/run. People throw balls for dogs etc. Don't need anything fancy. Hazelmere is perfect.
- I'd love to be able to use the dog park in winter but the trot park one just turns to slushy mud.
- Run for tennis. BALL throwing like baseball.
- Similar set up to the North Adelaide Dog Park.
- Not sure how it should be policed but too many people do not pick up after their dogs.
- unirrigated land stinks as nothing mops up the dog piddle.
- Lots of water options needed, preferably 3 or 4 at different parts of park.
- To plant a really resistant tough grass to grow in the area as most dogs parks I find get really muddy during winter and end up turning to mush once the dogs have run on it as well!
- Some ramps or equipment like the Flagstaff hill dog park has.
- All are important. Seating is also important as a lot of old people use dog parks as they are unable to walk them. Pine bark is not good to use as they go everywhere and it is hard to pick up poo and a lot of dogs eat it.
- Night lighting so in winter can still take my dog for run around at night after work.
- Multiple drinking stations, multiple bin & poo bag locations. Toilets would be nice.
- well grassed with appropriate supervision of owners by council staff.
- Proper water drinking for dogs. Hazelmere reserves drinking area is shocking.
- Lighting to enable night use.
- Toilets (for humans), drink areas, obstacles (for play).
- Multiple water taps for dogs, more bag points for picking up poo.
- Roy Marten Dog Park at Taperoo is very good.
- Dog equipment like tunnels hills etc.
- As above.
- Definitely the double gate. Absolutely essential for safety. North Adelaide park is a great model.
- Dog rinsing facility after they roll in the mud.

- Nearby public barbecue with shelter. This will encourage people to take their dogs to the dog park and make it a more sociable environment.
- All of the items in the list seem essential to me, choosing 3 implies the others are less important.
- Our dog is trained to a high level of agility and obedience so does not need fences but we help other dog owners whose dogs benefit from training and socialising and a fence with gates is essential for them. Access to a toilet would be a good idea.
- Just control the weeds (burrs and grass seeds) also would recommend cctv, to protect dog (mostly OA pensioners and single women) owners from aggressive and violent haters, and vandalism of dog facilities as is currently happening at Dover Sq.
- CCTV to prevent older ladies being bullied. Weed control e.g. burrs etc.
- Tap, car parking, shelter from rain.
- rocks/vegetation/levels.
- Lighting for night walks.

***Q8. Do you have a preferred suburb for the location of a new dog park?***

Preferred suburbs for the location of a new dog park within the City of Marion are listed below.

Suburbs within the City of Marion	Number of responses
Hallett Cove	24
Marion	13
Oaklands Park	9
Dover Gardens	8
Morphettville	8
Seacombe Gardens	8
Seaview Downs	8
Warradale	8
Edwardstown	6
Glengowrie	6
Mitchell Park	6
Park Holme	4
Plympton Park	4
Seacliff Park	4
Ascot Park	3
Clovelly Park	3
Glandore	3
Marino	2
Seacombe Heights	2
Sheidow Park	2
Trott Park/ O'Halloran Hill	2
South Plympton	1
Sturt	1
Darlington-Seacombe Gardens	0

## Summary of results:

The top responses for preferred suburb included Hallett Cove, Marion and Oaklands Park. Suburbs outside of the City of Marion as well as other comments are provided below.

## Other comments include:

- In the Warracowie or Southern Hills ward.
- Northern suburbs, Glandore, Plympton Park.
- unsure; somewhere central/west in council boundary. Currnet parks are north and south.
- Within 10kms of Westfield Marion.
- Clovelly Park area would be ideal.
- Really would like to know what is happening to the land in dover gardens (the old primary school) that could potentially be a perfect spot!
- Seaview downs... Central between Trott park and oaklands.
- Coastal between Seacliff and Brighton.
- Tonsley Redevelopment.
- Somerton Park/Glengowrie/Glenelg.
- Arthur Street gorge.
- Glenelg.
- North Brighton.
- will have to look around.
- hallett Cove, near the Cove Sports Centre, a great use ofr under utilised land.
- In areas of higher density.
- Northern suburbs.
- Central.
- Not really, we dont want to take away any ammenities from any other user no matter what the park is used for?
- Preferably closer to Morphett Vale.
- Somerton Park.
- Heading south to cover a differents suburbs.
- Glandore - but thats where I live, i don't really mind but would prefer that its not near a busy main road.
- Anywhere near ascot park.
- Anywhere in general Marion area.
- SOMEWHERE CENTRAL WITH EASY ACCESS IF YOU HAVE THE ONLY GREYHOUND PARK YOU WILL GET LOTS OF VISITS.
- Dover gardens. (There seems to be a lot of unused lovely parks around).
- Aldinga.
- Anywhere in the Marion area.
- Seacliff.
- Woodcroft.
- North Edwardstown.
- Honestly I would just love to see the oaklands park upgraded. There's enough space to add a small dog area and put the double gate in. It's a very popular park.
- Morphett Vale Area.
- within 3k of Dover Gardens.
- where you have lots flats and courtyard houses, that is where it is needed.

**Q9. Do you have a suggested park in mind?**

The following table provides suggested parks within the City of Marion.

Reserve Name	Suburb	Requests
Cadell Street Reserve	Seaview Downs	9
Scarborough Terrace Reserve	Dover Gardens	8
Hazelmere Road Reserve	Glengowrie	7
Gretel Crescent Reserve	Hallett Cove	6
Hendrie Sreet Reserve	Park Holme	5
Oaklands Road Estate Reserve	Oaklands Park	5
Mitchell Park Reserve	Mitchell Park	4
Roy Lander Reserve	Seaview Downs	4
Marion Sports	Marion	3
Bandon Terrace Reserve	Marino	3
Glandore Community Centre	Glandore	3

### Summary of results:

The most popular suggestions for a location of a new dog park include: Cadell Street Reserve in Seaview Downs, Scarborough Terrace Reserve in Dover Gardens and Hazelmere Road Reserve in Glengowrie.

### Other comments include:

- Lots of free land just off bray st area. Old housing trust area
- Near Hallett Cove Beach
- Close to Marion Sports ground, there is a lot of land there to utilise.
- Mitchell Park reserve. Include it in the new development plan for the reserve
- part of the brandon terrace reserve, which is a large area , currently under used because of lack of facilities for any one to use
- Pavana Pk or opposite green area off Greta or Ranger Street
- Part of the George street reserve, somewhere in the club marion grounds, one of the many parks in mitchel park.
- Bandon reserve Marino would be good. There's a lot of wasted unused space here. Could have a child section in middle. Lots of grass for dogs
- George street. Easy to fence off part of it.
- the oaklands road dog park needs to be upgraded its big enough to cut down the middle for small dogs on one side big dogs on the other
- Larger park with more trees.
- If you separate large from small dogs restricts those who have one of each
- Kent reserve if you add some off street parking
- Castle Plaza hills site.
- near sports club on the highway - access by pedestrian / car underground tunnel
- Tonsley somewhere...
- Anywhere near the Parkholme pool, lots of green parks around Parkholme, Seacombe Gdns and hill face would be easiest to access for local Warradale/Oaklands residents. Hallett Cove?
- There are several areas in Hallett Cove that would be appropriate
- An area between Qualio Ave and Caswell Drive/Glade Crescent Hallett Cove - This area is currently undergoing major development.
- Northern end of the reserve on Cadell Street /Denial & Wilson Avenue at Seaview Downs
- Warradale Park Tennis club has a park attached - perfect!
- A A Baily park
- No idea sorry
- Modify the one on Adams road by fencing into two parts
- The one on Adams road which is currently all dogs together
- Seacliff park has plenty of parks that could be altered
- Near marion sports fields
- Maxwell street park Edwardstown

- Mitchell park reserve- part used by Dover Gardens dog club
- The one on towers tce. It's used more by people with dogs than children.
- empty block of land on Pleasant Ave
- Anywhere possible in Morphett Vale or surrounding suburbs
- Yes, a no-brainer, the empty land across Cove Rd from Pavana Park that fufills absolutely ALL the criteria listed, & given there are already public toilets etc at Pavana Park families could use both facilites & maximise existing facilities
- Clacton Rd near Patrirtis's because it already has a toilet. The old Dover Primary School land is a derelict eyesore but would need to be purchased by council.
- Clacton Rd reserve, next Patritti winery, All it would need is some fences.
- Clacton Road neat Patriris
- Around plympton park/plymtpon area, it is demolition central now.
- Old pony club near Trott Park Neighbourhood Centre.

***Would you like to be added to the mailing list for this project?***

#### **Summary of results:**

65.8% of respondents requested to be added to the mailing list for this project.

**PIN DROP MAP - Do you have a suggested park in mind?**

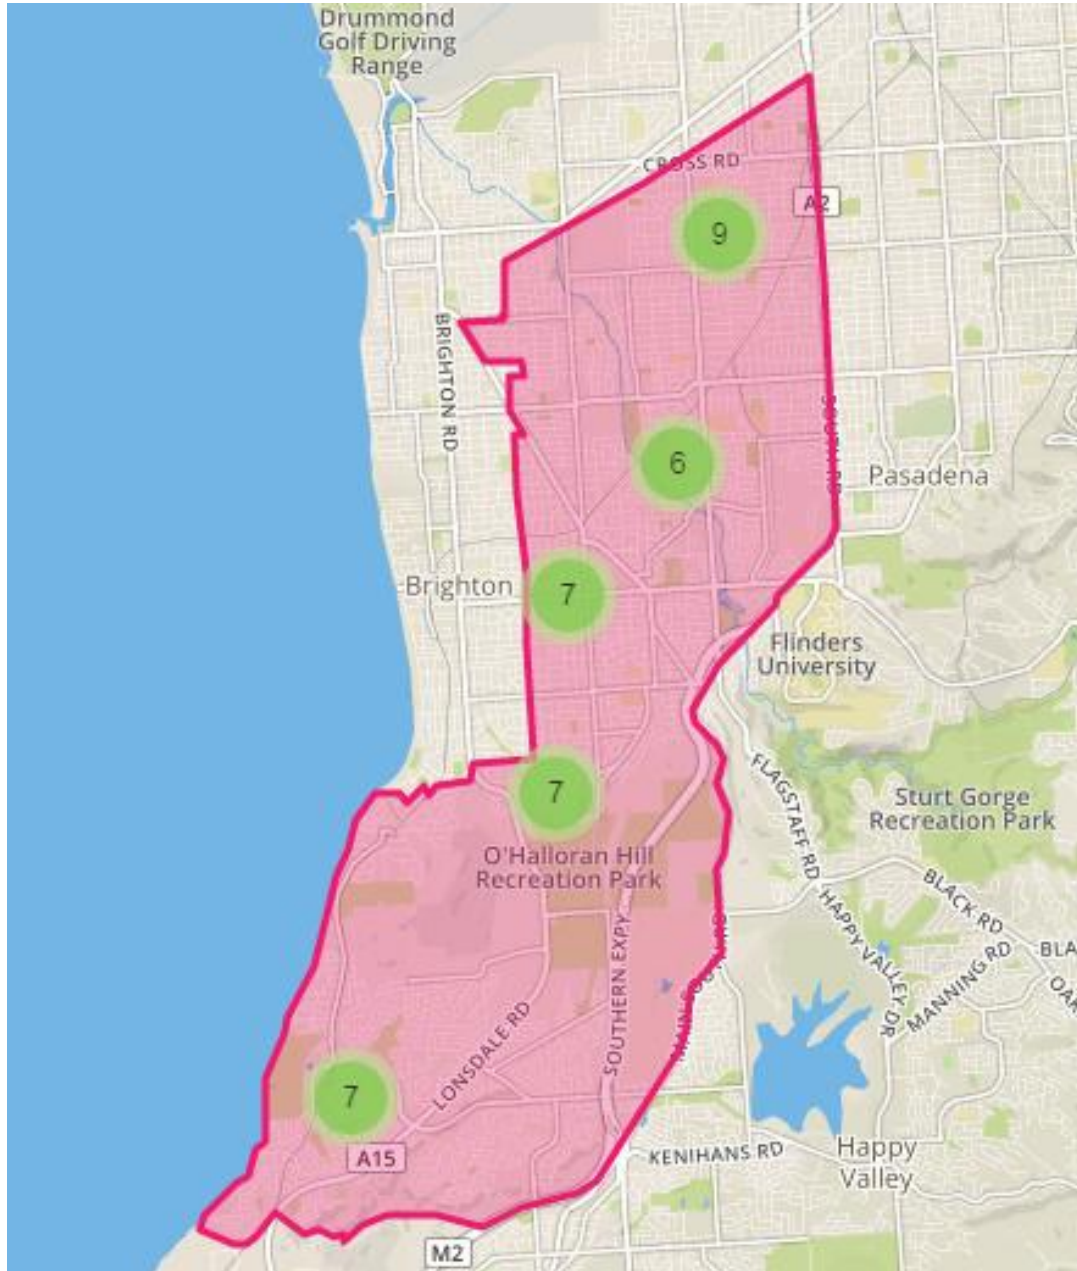

30 respondents provided a suggested park through the pin drop map. The locations were:

Name of Reserve	Comments
Appleby Road Reserve	<ul style="list-style-type: none"> <li>Lots of land being made available around here. Would be great location</li> </ul>
Brolga Place Reserve	
Cadell Street Reserve	<ul style="list-style-type: none"> <li>Plenty of space for dog park with kids playground alongside. Lots of families around.</li> </ul>
Crown Street Reserve	<ul style="list-style-type: none"> <li>This park gets no use whatsoever!</li> </ul>
Fairhill Street Reserve	<ul style="list-style-type: none"> <li>Existing unused area</li> </ul>
Glade Crescent Reserve	<ul style="list-style-type: none"> <li>Easy vehicle access - currently under development - has adjacent playground and community facilities.</li> </ul>
Glandore Community Centre	<ul style="list-style-type: none"> <li>Please make sure small dogs and large dogs have their own area....otherwise many of us cannot use it!</li> </ul>
Gretel Reserve	<ul style="list-style-type: none"> <li>This area is a great unused grassy area perfect for a dog park! Plenty of street parking and easy to get to!</li> <li>Close to walking track. Parking at Station and Skate park.</li> </ul>
Hazelmere Reserve	<ul style="list-style-type: none"> <li>This park is already extensively used as an off leash dog park by thousands of people a week. I would like to see upgrades such as lighting, shelter and seating in middle of park, another water point, better drainage, obstacles, double gates, better/cleaner toilet facilities</li> </ul>
Hendrie Street Reserve	<ul style="list-style-type: none"> <li>A large area already used by a great deal of dog walkers.</li> <li>Great location, fully fenced. An ideal choice</li> </ul>
Mitchell Park Reserve	<ul style="list-style-type: none"> <li>Would be nice to have a dog park close to established facilities</li> </ul>
Oaklands Estate Reserve	
Oliphant Avenue Reserve	<ul style="list-style-type: none"> <li>Hi, There does not seem to be much 'human' activity in this particular little park. It has nice trees and could be fenced off for a secure off leash dog park. Most people seem to be using the walk/bicycle pathway along the Sturt River, but not walk much through the other part. So generally changing its use to a secure dog park seems not to infringe (much) on human leisure activities or children playing. Thank you.</li> </ul>
Parsons Grove Reserve	
Pleasant Avenue Reserve	
Quick Road Reserve	<ul style="list-style-type: none"> <li>Underutilized park, a dog park could make a lot better use of this space, given the only facilities it currently has is one bench, a bin and an overabundance of sprinklers.</li> </ul>
Roy Lander Reserve	
Sandery Avenue Reserve	<ul style="list-style-type: none"> <li>Good sized oval.</li> </ul>
Scarborough Terrace Reserve	<ul style="list-style-type: none"> <li>This park in Dover Gardens would be ideal! It could be set up in conjunction with moving the Dover Gardens Dog Club from Mitchell Park, which would in turn free up space at Mitchell Park Reserve for the planned South Adelaide Basketball Stadium. Everyone wins!</li> </ul>
The Crescent Reserve	
Warradale Park Reserve	<ul style="list-style-type: none"> <li>Next to tennis club</li> </ul>
Weaver Street Reserve	<ul style="list-style-type: none"> <li>There's nothing in this area.. lots of people walk their dogs, should have something to make it More lively and have a stronger community vibe that is lacking. Especially in such a multicultural area.</li> </ul>
Weerab Reserve	<ul style="list-style-type: none"> <li>Having been to your wonderful place at Trott Park, this seems to be a great place to place another dog park. One side is already fenced by the railway line and there is a large tree lined</li> </ul>

	open space for the dogs to run around. With access off Perry Barr and Weerab Drive. Look forward to hearing your comments
--	---

These locations have been added to question 9, to provide a total list of suggested reserves for a new dog park.

## 7. Online Engagement - Forum

<b>FORUM - <i>Do you have a preferred suburb or suggested reserve for the new dog park?</i></b>
---

### Summary of results:

Four comments were received on the forum, suggested locations have been added to question 9. The comments are listed below.

### Comments

- Having at least one near homes makes it more accessible. I like the idea of having one further out, but, in practice I wonder if I would have the time to go out there.
- Someone suggested via pin Mitchell Park Reserve could be a good site, and given there is a dog obedience school that uses part of this area, many dog owners in the area would likely find it accessible. The nearby Egan Reserve could also work, given the park has had very little in the way of facilities for my entire life - mostly a single bench.  
It would be ideal if the park had several separate areas, for different sized or different confidence level dogs. And this would require adequate space.
- Marion Council is to be commended for this initiative. Dog parks are a very valuable social resource especially for elderly and lonely residents whose only companion is their dog. A good dog park in which they can feel safe can get them out of their isolation to meet other dog owners and build real friendships.  
Dog parks are also important for socialising dogs who are less likely to exhibit aggression and other antisocial behaviours if they are trained to mix peacefully with other dogs and dog owners.
- A simple solution at minimal cost would be to complete the fencing around the Clacton / Scarborough park near Patrity's winery. It is used for sport but there is already a rule that dogs must be on leads when organised sport is in progress

## 8. Social Media

Social media posts were made on Facebook during the consultation period. There was a strong engagement on social media with individual post reaching over 6, 000 people. Facebook posts and statistics are provided below. The suggested locations mentioned in the various facebook posts have been added to question 9.

Hallett Cove like a section of Pavana Pk with fences that go to the ground so little dogs can't get out, seating and toilets. In Ranger there is a small park sadly council decided to remove all the play equipment very small but its something

Like · Reply · Message · 1 · August 15 at 10:32pm

Use the old tennis court area that was in Roy lander reserve !  
Massive areas up there that are not used at all

They did one at Trott Park eventually, took longer as they spent all the funding on consultants 😞😞 have only been 3 times, when it rains it's a quagmire, and no toilets! So a long way back home so I don't bother with it, the consultants had no idea!!!!

Like · Reply · Message · August 15 at 10:29pm

still a bit of a quagmire when it rains but the toilets are nearly finished being built

Somewhere you can also have a children's playground visible right next door so you can watch over both human and fur babies. An obstacle course for the clever pups and a separate space for more timid pups who appreciate more human contact or calmer canine pals. Different floor textures so it's not all a mud bath in winter. A shower at the carpark exit to rinse muddy paws before they jump in the car. Plenty of human seats as we love to chat about our furbabies. I'm sure there are plenty of other ideas too 😊

How about the reserve next to Patritti Wines at Dover Gardens? Then perhaps the Dover Gardens Dog Club could move back there!

Like · Reply · Message · August 15 at 5:02pm

No need for another one so close to one on Oaklands Rd

Like · Reply · Message · August 15 at 6:11pm

There already is one not far from there

Would also be good if councils could actually enforce regulations and stop owners allowing their dogs to harass other dogs, people and wildlife. People do not understand "under effective control" and I'm sick of my dog being frightened by negligent or ignorant owners who think their dog is god's gift. It is really unfair to responsible owners and those unable to exercise their dogs off leash.

Like · Reply · Message · 2 · September 12 at 3:51pm

Preferably "not" near the beach as there are enough irresponsible owners letting dogs run loose already and making a mess. Yes and away from playgrounds too... as mentioned above.

Like · Reply · Message · 2 · September 12 at 2:54pm

Wherever you put a dog park may I suggest a area for smaller dogs please.

Apparently there's a dog park on Adams Rd, Trott Park but it would (apparently) be nicer to have a small dog area 🐾🐾🐾

Like · Reply · Message · September 12 at 4:14pm

lot the Mitchell Park Reserve. I do "step into life" there and already have to dodge dog poo, where I'm trying to work out and keep fit!!!

Like · Reply · Message · 1 · September 12 at 7:03pm

Hallett Cove. Not near the playground at pavana and keep the dog crap off the footpaths, there are some lazy dog owners in this suburb. Please please please

Like · Reply · Message · September 12 at 2:47pm

Roy lander reserve. Plenty of used land that has been doing nothing for decades

### Attachment 1: Copy of Hardcopy Survey

#### Community Survey – New Dog Park August 2017

#### HELP US PLAN FOR A NEW DOG PARK

Council currently has an official dog park at Reserve Street Reserve, Trott Park as well as a range of dog off leash exercise areas including Hazelmere Reserve at Glengowrie.

Council proposed to develop two new dog parks in response to community feedback.

Reserve Street Reserve Dog Park in Trott Park is Council's first official dog park and was opened in September 2016.

Council has committed funding to build a new dog park in 2018/2019.

We are mindful that a dog park can be a popular destination, which may impact surrounding residents due to increased traffic, increased noise and visual impacts. We are looking for a location that caters for these issues.

The Dog & Cat Management Board SA guidelines for a successful dog park suggest the following considerations in selecting a good location.

- Be an adequate size reserve
- Be easily accessible by road
- Have space or potential for off street parking
- Have connections to existing pedestrian paths and trails
- Be within walking distance of residential areas
- Have good surveillance from public areas (not an isolated site)

**This survey will be available for feedback from 15 August 2017 until 15 September 2017.**

## SURVEY QUESTIONS

1. **Would you describe the dog you own (or care for) as:** (please circle).

- Small (eg. Maltese / Jack Russell Terrier)
- Medium/Large (eg. Labrador Retriever / Border Collie)
- Neither/do not own or care for a dog.

2. **To which reserves do you currently take your dog?**

3. **Why do you use the above reserve/s?** (please circle).

- Dog exercise / dog socialisation
- Location (ie. close to work / home)
- Social reasons (ie. socialise with other dog owners)
- Facilities & amenities provided

Other / Comments:

4. **Do you support the development of a new dog park** (an area designed specifically for dogs) **in the City of Marion?** Yes / No.

Comments:

5. **What type of dog park is needed?** (please circle).

- A park for small dogs only
- A park for all dogs in one area
- A park with separate areas for small & large dogs

Other: please specify

6. **The key features we are suggesting are:** (please circle the top 3 features most important to you or your dog).

- Perimeter fencing (1.7-1.8m is recommended)
- Double gate entrance
- Bin
- Tap
- Signage
- Seating
- Shelter
- Car parking (or potential for)
- Irrigated Turf

Other suggested features / Comments

7. **Do you have a preferred suburb for the location of a new dog park?**

8. **Do you have a suggested park in mind?**

9. **Would you like to be kept informed of the progress of the playground? Please provide your details below:** (details will remain confidential)

Yes ☐

No ☐
