Subject Expression of Interest - Development Assessment Panel

Don

Following our discussion this morning, attached is a copy of my Curriculum Vitae.

Subject to confirmation of meeting times and other details, I wish to express an interest in being considered to sit on the City of Marion Development Assessment Panel. As you are aware, I undertook work on behalf of Marion whilst employed by Finlaysons. I have also been a member of Local Government, sitting on the St Peters Council for one term in 1990 – 1991.

On the planning side of things I am currently appointed to the Major Developments Panel and Local Heritage Advisory Committee.

Please keep me informed and thank you for contacting me with this opportunity.

Yours sincerely

Tricia Ross
Consultant, Environment & Planning

CURRICULUM VITAE
OF
STUART MAIN

QUALIFICATIONS

Bachelor of Law (LLB), University of Adelaide, (1972).

Master of Civic Design (MCD), University of Liverpool, UK (1979).

Practitioner of the Supreme Courts of South Australia and the Northern Territory and the High Court of Australia.

ACADEMIC AWARDS

RTPI Prize for outstanding results at University of Liverpool.

PROFESSIONAL AFFILIATIONS

Member of the Law Society of South Australia.

Member of the Royal Town Planning Institute (UK).

Member of the Royal Australian Planning Institute.

Member of the Environmental Law Association of South Australia.

Member of the Urban Development Institute of Australia.

CAREER RECORD

- 1972-73 Articled law clerk and salaried solicitor, Lambert and Solomon, Adelaide, South Australia.
- 1973-74 Salaried solicitor, Martin and Partners, Alice Springs, Northern Territory.
- 1975-77 Overseas travel.
- 1977-79 Masters Degree, University of Liverpool, UK.
- 1980-83 Senior urban planner, Hassell Planning Consultants, Adelaide, South Australia.
- 1983-87 Principal urban planner, Hassell Planning Consultants, with right of private legal practice.
- 1987-92 Director, Hassell Planning Consultants, with right of private legal practice.
- 1992- Established practice of Stuart Main, solicitor and environmental planner.

PROFESSIONAL EXPERIENCE

After three years of general legal practice, Stuart Main decided to pursue a special interest in town planning. Consequently, (after satisfying a passion for travel), he undertook the Masters Degree at the Department of Civic Design at the University of Liverpool. This well known and highly respected institute is the longest established planning school in the western world, having been founded in 1909.

During his studies at the University of Liverpool he specialised in areas related to local government action plans, community development, public participation in transport policy and legal aspects of development control. Upon graduation he was awarded the Royal Town Planning Institute Prize for 'achieving outstanding results in the final examination for the Degree of Master of Civic Design and making a major contribution to the work of the Department'.

Upon his return to Australia he joined Hassell Planning Consultants Pty Ltd, working mainly from their Adelaide office but also for periods in the Perth and Sydney offices. In 1987 he was made a Director of the firm. During his time as a Director, the firm clearly established itself as one of the leading town planning consultancies in South Australia.

From 1983 he concurrently ran a limited legal practice to service clients requiring legal advice or representation with respect to the planning process or particular development projects.

In May 1992 he resigned his directorship to establish an integrated legal and environmental planning practice.

While he was with Hassell Planning Consultants, he worked on a large variety of projects for Government, local government and the private sector and contributed both legal and planning expertise. Selected details are provided in the following section.

REPRESENTATIVE PROJECTS

The following examples are projects for which Stuart Main has been responsible or in which he has had a primary input.

The World Trade Centre — a 22-storey building on the corner of King William Street and Currie Street; negotiated planning approval as part of a diverse project initiation team.

The Adelaide Entertainment Centre — prepared planning report, on behalf of the South Australian Department of Housing and Construction, for the South Australian Planning Commission.

Chapel Hill Winery Redevelopment — negotiated approval for a major development of a type 'prohibited' in the Hills Face Zone.

Telecom Major Communications Building — a complex five-storey 14,000 square metre building on Flinders Street. As part of a project team, advised upon statutory design constraints and the approval process and prepared a detailed submission on behalf of Telecom to the City of Adelaide Planning Commission.

St Pauls Redevelopment — managed the development application and subsequent planning appeal for the demolition of a historic but unlisted building and its replacement with a four-storey office building. Planning approval and approval for demolition under the Building Act were obtained but changed market conditions prevented the development proceeding.

St Peters Medium Density Housing Development — application for land division and the construction of 18 compact dwellings on a former nursery site. Issues included density, urban design, potential soil contamination and fire safety requirements under the new Building Code of Australia. Protracted negotiations were ultimately rewarded with an approval.

Woodley Road Retirement Village — negotiated Council approval and successfully defended appeal by third parties.

Lyndoch Valley Resort — negotiated Council approval for a 200-room hotel/country club with golf course and 36 serviced apartments and successfully defended appeal against third parties, and the intervention of the Minister for Environment and Planning.

Unley Off-Street Parking Study — study of the means, preferred structure and legal implications of a Council establishing an off-street parking fund and receiving developer contributions in lieu of on-site parking provision.

Development Agreements: Their Role in the Disposal of Government Land — a study undertaken for the South Australian Urban Land Trust and Urban Development Institute of Australia which included the preparation of a model development agreement aimed at achieving broader social and community objectives in the development of new residential areas.

MFP: Local Government Structure — advice to one of the local government authorities involved in the proposed MFP development.

Technology Park Adelaide: Management Structure Report — included recommendations which resulted in the establishment of the former Technology Development Corporation (now the MFP Development Corporation).

Council Restructuring — advising and assisting several councils (both metropolitan and rural) on restructuring proposals before the Local Government Advisory Commission.

Tonsley Interchange SDP — preparation of a Supplementary Development Plan on behalf of the Minister for Environment and Planning (Stuart Main has contributed to many SDP's for both councils and government instrumentalities).

203-206 King William Street — preparation of a submission on behalf of the Police Department against the inclusion of a building on the City of Adelaide Heritage List.

Springs Smoked Salmon — negotiated proposal for development of a fish smoking factory (a primary impact level development) with the Environmental Management Branch of the Department of Environment and Planning and the local council. This led to the establishment of design criteria which enabled the development to fit within the definition of 'light industry', which was a permitted use on the site.

Craigburn Farm Development — managed various stages of the redevelopment of a former welfare institution/farm as a prime residential area, including the preparation of encumbrances on the development of allotments and a reserve development and maintenance agreement between the developer and the council.

Gulf Point Marina — preparation of land management agreements relating to the development of marina berths and the tying of particular berths to residential allotments.

Compulsory Aquisition of Land and Easements by Government Authorities — advising and negotiating on behalf of land owners subject to compulsory acquisition procedures by the Department of Road Transport (land for road widening) and the Electricity Trust of South Australia (major easement for high voltage, overhead transmission lines).

Specialised in the social policy aspects of planning, including needs assessment for social infrastructure, housing, recreation and leisure, safety and access

Involved in a landmark project in Victoria on planning for health.

Initiated a Community Planning process for the master planning of new development areas in metropolitan Adelaide and South-East Queensland.

Prepared Human Services Planning Kit with the South Australian Urban Land Trust for new development areas.

Undertaken social impact evaluation of major growth options for Metropolitan Adelaide, social impact assessment studies and training in the subject around Australia.

Provided advice on quality of life indicators for a major Queensland local government authority.

Championed the integration of social and physical planning in new development areas and Capital City Planning policies in South Australia and Queensland.

Melbourne Docklands Authority Community Plan preparation and advice on urban design and safety.

Preparation of Community Plans for local governments around Australia.

Community Consultation

Led the field on integrating community consultation into the planning and development process in South Australia.

Advisor to BHP Newcastle on a community consultation model prior to the downsizing of the Steel Works in that city.

New Queensland University development advisor in community service obligations and campus planning in the Sunshine Coast Region.

Urban Design and Safety

First Urban Design and Safety Studies in South Australia for Attorney General's Department and awareness raising for major new residential developments.

Development of Urban Design and Safety training packages for a wide range of local governments around Australia and for the Victorian State Government.

Development of Urban Design and Safety policies for Victorian State Government, Perth City Council and several other local government authorities around Australia.

Urban Design and Safety Advice on major State Government projects including the Roma Street Parkland (\$80 m) and the Lang Park Stadium upgrade (\$75m) in Brisbane.

Urban Design and Urban Regeneration

Urban Design Member of Urban and Regional Development Advisory Committee to SA Government

Co-author of the National Urban Design Education Strategy for the Commonwealth Government

Established new Department of Urban Design in Adelaide City with the development of an Urban Design Framework, urban design policies and awareness raising.

Facilitation of a new process of Project Scoping for capital works in Adelaide City forming inter-disciplinary teams for the preparation of project briefs as part of organisational change.

Established the first urban design guideline process between Adelaide City Council and the State Government for key sites including the new Commonwealth Courts building (\$73m) the Franklin Street Bus Station redevelopment, the Tram Barn site and others.

Design review of Canberra Civic Centre for a revitalisation project and its subsequent evaluation from a safety perspective.

Urban Design Guidelines for Brisbane City Council and numerous government and non-government organisations.

Statutory Planning

Merging of Departments of Policy Planning and Development; and Building into a single Department for the purposes of streamlining the development assessment process as a City Planner in a large inner urban local authority.

Expert advice to the development sector on statutory planning and witness in Planning and Environment Courts.

Strategic Planning

Major contributor to Strategic Planning in South Australia and in positions as City Planner in the City of Charles Sturt and Adelaide City Council

Strategic Planning advice to numerous local governments around Australia including the City of Greater Geelong

Preparation of landmark Barossa Valley Review and Strategy which led to the protection of this nationally important region for viticulture and tourism.

Growth Management Advisor to a region of India through the facilitation of a conference as part of an AUSTRADE New Horizons initiative.

Spearheaded the preparation of Housing Strategies for several local governments in South Australia and South-East Queensland as an integral part of strategic planning.

Training

Development of training kits and facilitation of training for local and state governments and the community and development sector around Australia in Social Impact Assessment, Urban Design and Urban Design and Safety.

Advice to the Commonwealth Government on a National Framework for Crime Prevention Training. Develop and facilitate curriculum review and lecture at a tertiary level in Urban and Regional Planning at Uni of SA..

Mission

The Mission of Wendy Bell through BELL PLANNING ASSOCIATES is to respond to changing social and economic circumstances of urban and rural environments and provide best practice advice in social, urban, and strategic planning and urban design and assist organisations to adapt and change in these fields.

Wendy Bell believes that this can be achieved by keeping abreast of leading edge approaches throughout the world and bringing that knowledge to projects and raising awareness and empowering others through training.

An essential element of the practice is the involvement of the public in planning and urban design with the following underpinning values:

- Ecological sustainability
- A balance between social, economic and environmental needs
- The right of the community for participation
- Fairness and equity.

Major Services

The practice offers a range of skills with a focus on urban design, strategic, policy and community planning and training in these fields for all levels of government, and the development and non-government sectors.

The broad project areas covered by the practice are expert advice provided in:

Community Planning and Consultation

Urban Design

Urban Design and Safety

Urban/Regional Planning

Strategic Planning

Statutory Planning

As well, training programs are offered in:

Urban Design

Urban Design and Safety

Community Impact Assessment

Social Infrastructure Planning

The practice also leads projects and links with other consultants to provide in inter-disciplinary service to clients including in-house consulting.

Community Planning and Consultation

Wendy Bell as Principal of Bell Planning Associates has made a major contribution to community planning in Australia and was co-author of the Human Services Planning Kit prepared by the then SA Urban Land Trust. The second edition of the kit received a RAPI (SA Division) Award for Excellence in Planning in 1995.

Other dimensions of her work in Community Planning have included the preparation of Community and Social Plans, Community and Social Impact Assessment studies and training, and community consultation.

The firm has led or been associated with the following selected projects:

- Social Impact Assessment Training for local governments in Queensland and South Australia from 1994 - 97
- Quality of Life Indicators studies and housing and community needs studies in Queensland and South Australia
- Seaford Social and Human Services Planning Study and Community Planning for several major new residential developments in South Australia
- Training in Social Infrastructure Planning

- Social Planning contribution to planning litigation in Queensland, the ACT and SA
- Social Planning studies for Seaford SA, and for Caboolture Shire and Toowoomba City Councils in Queensland.

Urban Design and Safety

Wendy has championed the field of Safety and Urban Design since the late 1980s when she undertook several major studies for the South Australian Government and the Commonwealth Government.

Projects have included:

- Research Study on Crime Safety and Urban Form for the Commonwealth Government
- Urban Design and Safety Policy for Gold Coast City Council
- Urban Design Guidelines for the SA Government focussing on town centres and new residential areas
- Urban Design and Safety Guidelines for the private sector in major residential areas
- Safety and Urban Design Study of the Adelaide City CBD
- Urban Design and Safety Training for the cities of Adelaide, Brisbane, Melbourne, and the South Australian State Government, numerous smaller local governments and regional organizations of local government around Australia
- Safety Audits of major sites and developments such as shopping centres, transport interchanges and major recreation venues.

Urban Design

Wendy Bell as Principal of Bell Planning Associates draws on her Architectural, Planning and Community Planning expertise to advise clients around Australia on urban design policy, implementation and training.

She was the first Manager of Urban Design at the City of Adelaide in 1999-00 and a member of the City of Charles Sturt and Gold Coast City Council Urban Design Panels.

She was co-author of the National Urban Design Education Strategy which won a National RAPI Award in 1997 and has been a benchmark for Urban Design Awareness, training and education since.

The firm has led or participated in the following urban design projects:

- Facilitation of an inter-disciplinary process and urban design input to major centres in Adelaide
- National Urban Design Education Strategy for the Commonwealth Government
- Urban Design Policy Study for the Commonwealth Government
- Urban Design education and awareness raising and training for local governments around Australia
- Urban design and safety policy for local governments
- Urban design and safety training for local governments.

Urban/Regional Planning

Bell Planning Associates has undertaken a number of award winning urban planning projects either as the lead consultant or in association with other consultants. These projects include:

- Munno Para Structure Plan
- Housing Strategies for local governments in SA and Queensland
- Barossa Valley Review and Strategy
- Social planning and urban design input to Brisbane City Council New Town Plan and the Gold Coast City Council Planning Scheme
- Centres Studies in the Gold Coast, Brisbane City Council, Seaford Joint Venture Development in SA, Salisbury City, Elizabeth, Unley and Goodwood Shopping Centres
- Urban Growth Management in Bangalore India.

Strategic Planning

Bell Planning Associates has led or been a member of teams undertaking major strategic planning projects with the following representing the range:

- Strategic Planning for the Thebarton Corporation
- University of the Sunshine Coast Strategic Plan
- South Australian Planning Strategy, member of Reference Group
- Brisbane City Strategic Plan, Social Planning, Urban Design, Housing, Social Infrastructure, Safety and Centres input
- Gold Coast City Council Strategic Plan, safety and urban design input
- Strategic Review of the Planning for City of Charles Sturt
- Strategic Urban Design Framework for the City of Adelaide
- Barossa Valley Review and Strategy
- Southern Region Review and Strategy Metropolitan Adelaide

Statutory Planning

Wendy Bell has been a City Planner for two local authorities, the City of Charles Sturt and Adelaide City. She has been involved in the preparation of the Adelaide Metropolitan Planning Strategy and in numerous Development Plan Amendments Reports.

As the Principal of Bell Planning Associates she has undertaken statutory planning studies for local governments and the private sector in South Australia and has represented the private sector in the ERD Court and in the Queensland Appeals Tribunal.

Training programs

Wendy has specialised and is qualified to train in the planning and preparation for and the conduct of training in the following fields:

- Urban design
- Urban Design and Safety
- Community Impact Assessment
- Social Infrastructure Planning
- Planning for Housing

Her clients have included many local governments and regional organisations of local governments in Australia, the non-government sector and state governments.

*Mark Adcock
26 Torrens Street
MITCHAM SA 5062*

13 May 2003

Mr Don Donaldson
Director Development Services
City of Marion
PO Box 21
OAKLANDS PARK SA 5046

Dear Mr Donaldson

**EXPRESSION OF INTEREST
CITY OF MARION DEVELOPMENT ASSESSMENT PANEL**

I wish to apply for membership on the City of Marion Development Assessment Panel as recently advertised.

As a practicing town planner with over 25 years experience in both Local Government and the private sector I have a wide and comprehensive knowledge of urban and regional planning, in particular within the context of development assessment.

My professional career has included extensive experience in the role of development assessment, both as a planner undertaking the assessment of applications and reporting to planning committees and Panels, and as a consultant preparing applications and representing parties in the assessment process. More recently I have held management positions of development assessment teams, including the Marion Council and currently the City Of Onkaparinga. My three years employment with the City of Marion has given me a sound appreciation and understanding of the planning direction and framework of the City.

This experience, together with my general planning background, would enable me to make a positive and informed contribution on behalf of residents and ratepayers, to the form, amenity and function of the City. Marion encompasses a range of different and diverse local environments and it is important that the decision making process recognizes these essential features when assessing development within the context of the City's Development Plan.

In support of my application I attach my Curriculum Vitae, however a brief summary of my qualifications and experience supporting my suitability for the position follows:

- Bachelor of Arts (Planning) from the former South Australian Institute of Technology (Dip Tech Planning awarded 1977);

- 26 years experience as a practicing town planner in South Australia, comprising some 14 years in local government and 12 years in private practice (Kinhill Engineers and my own consultancy firm;
- Fellow of the Planning Institute of Australia (PIA);
- Sound knowledge and understanding of Metropolitan and regional planning issues through employment with local Councils including Adelaide, Tea Tree Gully, Mitcham, Marion and currently Onkaparinga; and extensive consultancy work with Council's such as Port Adelaide, Noarlunga, Happy Valley, Gawler, Port Elliot and Goolwa, Victor Harbor, Port Pirie, Port Augusta, Lower Eyre Peninsula, Kangaroo Island, Mount Gambier, Naracoorte, and Coober Peedy.
- Experience in strategic issues at State level through contract work with Planning SA, the Department of the Premier and Cabinet, and Primary Industry and Resources;
- A long and continuous commitment to the profession through active involvement in the former Local Government Planners Association (LGPA) and a member of PIA for some 24 years.
- Proxy Member of the Planning Education Foundation.
- Member of the Urban Development Advisory Committee (Ministerial appointment)
- Extensive development assessment experience for local government both as an employee and consultant;
- Extensive strategic and policy planning work at both the local and State Government level;
- Substantial experience in environmental planning, assessment, project implementation and policy development;

With this experience I believe I can make a significant and worthwhile contribution to the Marion Council Development Assessment Panel. My current employment with the City of Onkaparinga as Manager Development Services, would provide no impediment to me undertaking this role as the Onkaparinga panel meets fortnightly on Thursday nights. I look forward to the opportunity of discussing my interest in this position further should this be appropriate.

Yours faithfully

Mark Adcock, FPIA

CAREER HISTORY

July 2002 to present

Manager Development Services, City of Onkaparinga

Responsible for the management of the Onkaparinga Council's development services department, comprising the planning assessment team, building assessment team, and development compliance team. Duties include day to day management of all professional, administrative and human resource functions of the department, and linkage and coordination with corporate responsibilities and programmes. Provision of high level town planning advice, direction, procedures and professional development for the department and corporation.

Contribution to policy and strategic planning initiatives and programmes. Senior level liaison with Elected Members, the Council's Development Assessment Panel, and key Government Agencies.

April 1999 to June 2002

City Planner / Manager Environment, City of Marion

Dual role of City Planner, and Manager of Environmental Services Department comprising Development Assessment (planning and building) unit and Environmental Health unit. Responsible for senior management advice to Council on all planning and assessment matters, and for managing the activities of all units in the department.

February 1998 to April 1999

Principal Policy Officer, Aquaculture Group, Department of Primary Industries and Resources South Australia

Deputy to the General Manager Aquaculture and acting in the position of General Manager during periods of leave and absence.

Responsible for the formulation and preparation of aquaculture management policies and guidelines throughout the aquaculture group to enable the effective administration, management and timely development of the South Australian aquaculture industry. Policy development undertaken at both the State level and where necessary the National level.

Principle areas of policy development include planning and development approval and administrative systems, formulation of state-wide area specific management plans, industry guidelines and codes of practice, resource planning and allocation policy, stock translocation, fish health and disease, and license and leasing policy.

Primary duties include:

- management of group in absence of general manager;
- day to day supervision and management of the planning, licensing, management planning and resource planning functions of the group;
- advice on assessment of aquaculture development applications;
- advice on government policy affecting aquaculture development;
- provision of wide ranging support to all sections of the group and the industry;
- inter-agency and stakeholder consultation;
- co-ordination and management of research to support industry development and management;
- group strategic planning;
- professional support and advice to industry management committees;
- co-ordination of group activities to assist in implementation of the aquaculture industry action plan in relation to industry management and regulation;
- identification and formulation of legislative amendments to facilitate industry development and management in a sustainable and environmentally responsible manner.

Specific projects undertaken or current to date include:

- review of development assessment planning procedures and processes;

- review of resource allocation procedures and identification of major structural changes and legislative amendments required to address community and environmental concerns in the development assessment and resource allocation process;
- preparation of leasing policy and lease issuance procedures;
- review and formulation of new management plan preparation procedures;
- review of management plans for Lower Eyre Peninsula, Far West Coast, South East, and Kangaroo Island.

April 1994 to January 1998

Principal - Mark Adcock & Associates, town planning consultancy

Established a private town planning consultancy practice in April, 1994 providing a range of planning, development and environmental services. Clients included private sector individuals, business, organisations, Local Councils, and State Government agencies.

Principal services included design, documentation, processing and advice on a range of development projects in respect to compliance with relevant planning, development, environmental, heritage and related legislation; research, analysis and studies in relation to the natural and built environment; the preparation and formulation of planning policy, administrative and implementation procedures; and the provision of expert evidence in relevant Courts.

A selection of major projects and studies undertaken includes the following:

Policy, Development Plan reviews and implementation

- review of the Development Act and Regulations for the Minister for Housing and Urban Development;
- planning strategy for Country South Australia for the Department of Premier and Cabinet;
- Modbury Regional Centre Plan Amendment Report;
- Marion Regional Centre Plan Amendment Report;
- residential planning review for the City Of Mitcham;
- Metropolitan Adelaide North West Area Strategy Plan - housing issues;
- heritage area Plan Amendments and development guidelines.

Development, planning and design

- Strategic planning for major broadacre land releases in Metropolitan Adelaide
- Various office redevelopment proposals and feasibility studies
- Various urban and rural land divisions
- Aquaculture developments, South East
- Proposals for expansion of various private hospitals and nursing homes
- Guidelines for inner city housing redevelopment
- Greenfields site development potential analysis
- Advice on a range of land use and development applications, representations, appeals and related matters
- Visual impact assessment for mobile communication towers
- Planning consultant for leading national and international food chain
- Planning consultant to several local government corporations
- Preparation and presentation of expert evidence before the various planning courts and tribunals

1992 -1994

Senior Planner-Policy, City of Mitcham, South Australia

Responsible for the direction, co-ordination and implementation of the Council's strategic and policy planning functions including identification of policy requirements, preparation of supplementary development plans (now Plan Amendment Reports) and related planning studies, co-ordination of State and Commonwealth initiatives, appointment and direction of planning consultants, co-ordination and management of in-house project teams, preparation and administration of planning budgets, education of planning staff and elected members, and professional advice to Council on a range of planning issues.

Additional duties include the formulation and implementation of special projects undertaken by the Council including feasibility analysis, administration of budgets, engagement and supervision of consultants and contactors, land purchases and public consultation.

General duties also include the supervision of planning staff, development assessment of major applications, and responsibility for the overall operation of the Planning Department in the absence of the Director Environmental Services.

1985-1992*Senior Planner, Kinhill Engineers Pty Ltd*

Project Manager and senior consultant involved in a range of planning and development studies; development projects; environmental impact studies; supplementary development plans; statutory planning; development applications; general advices; and planning appeals. Specific fields of competence included the management of large planning and environmental studies, co-ordinating multi-disciplinary teams of consultants and management of project budgets, timetables and project quality.

A selection of major projects and studies worked on includes the following:

Town and regional studies:

- studies of town centres at Port Noarlunga, Victor Harbor, Goolwa, Port Adelaide, St Kilda, Coffin Bay, Gawler, Salisbury, Unley, Nuriootpa, Tea Tree Gully and Marion for the relevant local government authorities;
- LeFevre Peninsula Development Options Feasibility Study for the Department of Premier and Cabinet;
- review of development policies, Port Adelaide for the City of Port Adelaide;
- study of long-term development options for metropolitan Adelaide for the Department of Environment and Planning;
- review of residential policy and zoning for Cities of Marion and Port Adelaide;
- Gawler Regional Structure Plan Study for the Department of Environment and Planning.

Land development, planning and urban design:

- Seaford Development and District Centre;
- jubilee Point marina and residential development, Glenelg;
- several central city office block redevelopment proposals and feasibility studies;
- streetscape improvements, Victor Harbor;
- various urban and rural land divisions;
- holiday township and marina, East Wellington;

- liquid waste treatment facility, Enfield;
- lake and residential development, Encounter Bay;
- tourist resort, Barossa Valley
- cemetery site selection and feasibility study for the Southern Metropolitan Region of Councils.
- guidelines for development of offshore islands of South Australia;
- aquaculture hatcheries at Louth Bay and West Beach;
- proposals for expansion of various private hospitals and nursing homes.

Statutory and policy planning:

- supplementary development plans for the Seaford Development Area and District Centre, West Beach Trust, St Kilda Township, Victor Harbor Township, Goolwa Township and Waterfront Area, East Wellington Township, Adelaide Fruit and Vegetable Market at Salisbury, Port Adelaide Centre, Port Adelaide Council area, Encounter Lakes Waterfront Residential area, Rural and Equestrian Zone at Victor Harbor, Marion Regional Centre, Estcourt House Tourist Zone, Barossa Country Club Tourist Accommodation Zone, Modbury Regional Centre.
- various planning applications for land developments and changes of land use;
- representations on behalf of clients to development proposals;
- representations to planning authorities on land use, heritage, environmental and policy matters;
- preparation of reports for prohibited development;
- preparation of expert evidence for planning appeals.

Recreation and tourism:

- management plan for recreation and tourist activities, West Beach Trust;
- tourism development strategy plan for Western Metropolitan Region of Councils, Adelaide;
- upgrading and expansion of caravan park, Payneham;
- indoor and outdoor community and recreation facilities, Colonel Light Gardens;
- options for future use and rationalisation of racetracks in the Adelaide metropolitan area;
- development policies for an international tourist complex at Estcourt House;
- major tourist resort comprising hotel, villas, conference centre, sports club and associated infrastructure, Barossa Valley.

Environmental studies, impact assessments and management plans:

- preliminary environmental assessment of route options for a gas pipeline from Palm Valley (Alice Springs) to Port Augusta. Project management, including archaeology, anthropology, vegetation, land forms and land use;
- environmental studies for an optic fibre cable link for Telecom from Darwin to Katherine, and Katherine to Camooweal (Northern Territory), and from Camooweal to Mount Isa

(Queensland). Project management for flora and fauna, geophysical, aboriginal, and marine studies;

- environmental impact statement for a 275 kV transmission line from Tungkillo to Taillem Bend. Socio-economic, land use and statutory assessment and planning components involving alternative route options and selection;
- environmental assessment of route options for a gas pipeline from Katnook to Mount Gambier and Millicent. Project management, land use and land management issues. Management of archaeological surveys and excavation and vegetation surveys;
- preparation of Code of Environmental Practice for construction of gas pipeline from Katnook to Mount Gambier and Apcel Paper Mill;
- environmental impact statement for marina and residential development, Jubilee Point, Glenelg. Land use and statutory planning components;
- environmental impact statement for Groundwater Interception Scheme at Woolpunda (River Murray). Land use, tourism, socio-economic and statutory planning components;
- environmental impact statement for the construction of a Rare Earths Processing Plant at Port Pirie. Land use, statutory planning, landscaping, visual impact, socio-economic and traffic and transport components;
- environmental management plan for Tindal Air Base, Katherine. Land management and development issues, fire protection, safety, and impact on pastoral activities.
- environmental impact statement for redevelopment of the Apcel Pulp Mill, Millicent. Land use, statutory planning, amenity and visual impact components;
- mine development plan for Stage 2 Development of the Boral Resources quarry at Para Hills. Mine management operation and impact, land use and zoning, environmental protection and rehabilitation and visual impact components;
- environmental management plan for protection and development of the Mount Gambier Volcanic Lakes. Project management, land use and recreation planning, rehabilitation, management and development guidelines;
- planning application and environmental management plan for slag dump expansion at BHAS, Port Pirie;
- formulation and compilation of proposed Environmental Legislation Handbook for Department of Environment and Planning.

DOC ID. _____ FILE NO. <u>55/10/07</u>	9 May 2003

The Chief Executive Officer
City of Marion
245 Sturt Road
STURT SA 5047

Attention: Mr Don Donaldson

Dear Mr Donaldson,

**RE: EXPRESSION OF INTEREST - CITY OF MARION DEVELOPMENT
ASSESSMENT PANEL**

I, Steve Hooper, wish to express a keen interest in being an independent member of Council's Development Assessment Panel.

I believe that I would be suited to such a position, having close to ten years experience as a Town Planner in both Local Government and private enterprise. I am currently employed as a Senior Planner at Charles Sturt Council where a key duty involves preparing and presenting items to the Development Assessment Panel (D.A.P.).

Accordingly, I am familiar with the duties and responsibilities of the Panel members, the operation and protocols of a Development Assessment Panel and the matters that generally come before it.

In my role at Charles Sturt, I believe I have established a repore with each of the members of the Development Assessment Panel, which includes elected members, senior staff and the independent Panelist. Of course, in such an environment, it is inevitable that members will not always adopt the staff recommendation, however, the nature of the Charles Sturt DAP is such that I believe that my involvement as a senior staff member would be well respected and valued.

I am familiar with the requirements of the Development Act and the role of the Council's Development Plan in the decision making process. I am also familiar with the operations of the Environment Resources and Development Court and I note that I have acted as an Expert Planning Witness before the ERD Court for various Councils.

As a senior planner I am also familiar with the protocols that are required in a position such as this and the nature in which Council committees operate.

Notwithstanding my experience as a Town Planner, I am also a resident and property-owner within the City of Marion. I have a keen interest in planning matters that come before this Council. As an interested observer I have followed the public consultation and associated planning issues that have come before the public realm, such as the Residential PAR, the re-development of the Domain, and the Marion South project. I have a long-term interest in this Council having spent much of my life within the Council area.

I believe that I could make a valuable contribution to the Panel. I would anticipate the role of an expert panelist would include examining reports prepared by Council staff, inspecting individual development sites and making useful professional contributions at the DAP Meetings. I am both willing and able to commit the time required to perform this role.

I believe it would be useful for independent members to be in a position to provide technical expertise of an unbiased, a-political nature. Independent members could include Architects, Urban Designers and qualified and suitably experienced Town Planners. In this regard, I believe my experience makes me well suited to the position. I note that I am a corporate member of the Planning Institute of Australia.

I would welcome the opportunity to discuss this application in further detail and I am available at your convenience. I can be contacted at work on 8408 1178 or after hours on 8350 9602.

Yours sincerely,

Steve Hooper

Mr Don Donaldson
Director, Development Services
City of Marion
PO Box 21
Oaklands Park SA 5046

Dear Don

EXPRESSION OF INTEREST FOR CITY OF MARION DEVELOPMENT ASSESSMENT PANEL

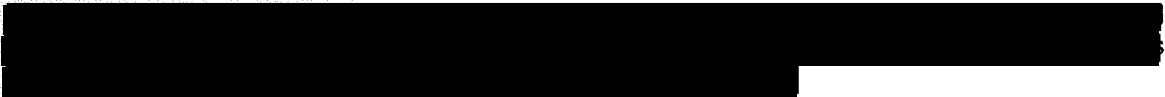

Further to our telephone conversation last week I wish to confirm my expression of interest for membership of the City of Marion Development Assessment Panel ("DAP").

I am confident that I can make a valuable contribution to the City of Marion DAP, and wish to point out that as well as being highly motivated, I am able to offer the Council well developed skills pertinent to the assessment and determination of development applications.

I also wish to point out that I have carefully read the *CITY OF MARION DEVELOPMENT ASSESSMENT PANEL CONSTITUTION* and Council's *2001-2002 Annual Report*, and believe that I am able to assist and facilitate the attainment of the DAP's objectives as well as Council's organizational goals, and contribute effectively to achieve Council's mission, and, ultimately, deliver Council's vision.

I have well developed leadership and advanced problem solving skills; excellent written and verbal communication, interpersonal, and presentation skills; highly developed skills in consultation, mediation, and negotiation; sound computer skills; and I believe in, and enthusiastically encourage, team co-operation.

Please do not hesitate to contact me if you require any further information.

I look forward to hearing from you soon.

Yours sincerely

MICHAEL HIHIMANIS MPIA

To whom it may concern

I confirm that [REDACTED] by the City of Kensington & Norwood as its [REDACTED] whilst the Councils Senior Planner was on leave.

During this period of employment, [REDACTED] acted as the Councils sole planning adviser and dealt with all facets of development control, general planning issues and the supervision of staff.

[REDACTED] handled the tasks assigned to him in a competent and professional manner, and notwithstanding the short term nature of his contract, completed the tasks in an accurate and timely manner.

[REDACTED] is very conversant with the administration of the planning system and dealing with complex planning issues. He is a diligent worker and would appear to adapt well to new working environments and situations.

In my view, Michael would make a valuable contribution to any organisation and in particular working with a planning team.

TO WHOM IT MAY CONCERN

This is to confirm that [REDACTED] has been employed as a [REDACTED].

During this time he was stationed in the [REDACTED] of which I am Manager. Consequently, I feel that I am able to give an accurate assessment of his comportment.

During [REDACTED] with Council, I found Michael to be very professional in his work, being most diligent, accurate and efficient. His dealings with the public were most amiable and congenial and his attitude assisted to overcome some potentially explosive situations.

Michael ensured that development assessment of applications was carried out in a professional way, having due regard to the relevant legislation and when in doubt, was not adverse to seeking clarification or guidance from me. This ensured that applications were not unduly delayed and contributed to the cohesion of the Planning Section of my Department, which, in turn, allowed for more efficient work output.

I am sure that Michael will succeed in his chosen career.

TO WHOM IT MAY CONCERN

Michael HIHIMANIS has been employed [REDACTED]
planner (Development Assessment) within the Council's Department
of Planning and Development from the [REDACTED]
[REDACTED]

During that time, Michael has proved an efficient, punctual, thorough and conscientious worker. His duties have included answering queries related to planning matters from members of the public over the phone and personally, attendance at meetings of the Planning and Environment Committee, the evaluation of planning applications, the preparation of written reports to Council, and the processing of applications under delegated authority by Council. As many of the development applications within the City of Adelaide involve complex calculations regarding plot ratios and floor areas, his mathematical skills have been highly relevant.

At all times, Michael has responded to any requests with enthusiasm and has impressed me with his dedication to the task at hand. The fact that Michael's stay with us has been extended [REDACTED] is a reflection of the standard of his work and the valuable service he has provided to the Department. His personable and friendly manner has made him popular with his peers and I would rate highly his social skills with both the public and staff.

I commend him highly for any planning position he may seek in the future, and would be pleased to expand on the above should any prospective employer wish to contact me.

Yours sincerely,

[REDACTED]

Mr Don Donaldson
Director, Development Services
City of Marion
PO Box 21
Oaklands Park SA 5046

Dear Sir,

Re: Expression of Interest – Development Assessment Panel

I respectfully submit my name for consideration regarding appointment as one of the 'independent members' on the Development Assessment Panel. I have been retired for a number of years and can give the required time to Council activities.

Community Involvement

I have been a home owner in the City of Marion since my marriage in April, 1959. During this time I have taken an active interest in the development of Marion, particularly in the area in which I live at Glengowrie—previously known as (Fereday's estate called) Beaconsfield. During this time I participated in the committee examining the deployment of traffic restrictions in the surrounding streets of Glengowrie - with Peter Tsokos. Some ten years ago I undertook a survey of the surrounding area and submitted the survey results to the Police Department and successfully initiated the establishment of Area #282 of Neighbourhood Watch – am also the Zone Representative for Zone #11. Around this time, initiated the formation of the Hazelmere Reserve Residents Association, which successfully negotiated with Marion Council to retain this reserve for the use of local residents at the close of Glengowrie High School. This Reserve is now in constant use by residents of the area, largely due to the contribution made by Marion Council, who fenced the area and planted many beautiful trees and shrubs.

Policy and Planning Skills

My interest in policy and planning/development is a result of undertaking and completing a Ph D program at Ohio State University in 1979 –1981. The key areas studied were in Policy Analyses and Development, as well as evaluation and research methodologies. Subsequent work was spent at a policy and planning branch of the S A State Government department. Work was also carried out at two national research centres. The first at the National Centre for Vocational Education attached to the Ohio State University, the second at the TAFE National Centre for Research and Development. In both institutions I was responsible for carrying out a number of state and national studies – mainly concerned with occupational education and associated policy issues. Work in TAFE head office also involved studying the state demographic trends using the Australian Bureau of Statistics and departmental statistical data, undertaking skill analyses, researching industrial and commercial developments, the educational training needs of the workforce, the 'enrichment' requirements of the local community, and the social characteristics of people in the possible catchment regions of proposed (new) TAFE colleges.

Social and Professional Involvement

During my latter working life, I was a practising Psychologist with my own in professional office at Glengowrie assisting the emotionally distressed, business people undergoing managerial stress, enabling people to develop new relationship skills to repair broken marriages, and the like.

SCANNED

Extracurricular Activities

During my working life, I have been involved in many, many committees, often as chairman, and as a volunteer counsellor at Lifeline, Marriage guidance Counsel (now Relationships Australia) and with a major church welfare organisation (where I was also Chairman of the Council). I have also been actively involved in my own church over many years holding positions of Chairman of Evangelism, Secretary of the Congregation, Elder (for 20 years) and Chairman of Elders.

In my retirement, I have been president of the WEA Amateur Photographic Club, Secretary of the Audio Visual Club of South Australia, and am currently on the Management Committees of the South Australian Photographic Federation and the Australian Photographic Society.

My wife and I are also keen caravaners.

I trust this brief overview provides sufficient information for your requirements. I can be contacted on 8294 5243 or by E-mail at ronsch@ozemail.com.au

Yours Sincerely,

Ron Schilling

Alice Clark.

14th May 2003

Attn: Mr Don Donaldson

City of Marion
245 Sturt Road, Sturt

Dear Mr Donaldson,

RE: City of Marion Development Assessment Panel

I would like to express my interest as a member for the Development Assessment Panel for the City of Marion. I have thoroughly read a copy of the Development Assessment Panel's Constitution and understand that as a member of the panel I will be required to act accordingly by these guidelines.

At the present, I am undertaking my final year at the University of Adelaide majoring in a Bachelor of Environmental Studies. The courses I have completed and are currently undertaking are: Environmental Management, Coastal Management, Environmental Change and Environmental Impact Assessment.

From my experience, development proposals whether major or minor have social, economical and environmental implications upon the surrounding community. With a sound understanding of the Environmental Impact Assessment processes I will be able to contribute ideas and give valuable opinions on development proposals which are to be placed in front of the Development Assessment Panel.

I am genuinely concerned about our local environment and issues relating to development practices. I am an environmental volunteer for the City of Holdfast Bay where I enjoy contributing my time to better sustain our natural environment. I also have the ability to work independently and in a team environment.

Please do not hesitate to contact me on mobile number 0401174684.

Yours Sincerely,

Robin Ella Mather
