

The following are examples of successful projects from Round One, 2016/2017.

## **COMMUNITY DEVELOPMENT:**

### **Lions Club of Hallett Cove & Districts**

The Lions Club is a community service club that supports local, national and international projects. The club requested a grant towards the ANZAC Day Dawn Service held at the Hallett Cove foreshore war memorial. The club has held a dawn service at the war memorial since it's opening in 2015, attracting approximately 7,000 people in 2016 and 400 people to a community breakfast following the service, held at the Cove Sports & Community Club. A dawn service and community breakfast is planned for ANZAC Day 2017, involving a range of groups including Hallett Cove R-12 School, Hallett Cove Scouts, Warradale Barracks and local Vietnam Veterans. The club will use the grant for the hire of toilets and sound equipment.

## **ARTS & CULTURE:**

### **Carer Support**

Carer Support is a not-for-profit organisation based in Glandore which supports unpaid carers through offering respite, support groups, information and referrals. The group has established a community garden and requested grant funding to create a garden mural that reflects what Carer Support does in the community, Indigenous culture, and the cultural diversity of the local community. The grant will be used to contract an artist to work with the carers to design and implement the mural, as well as arts materials.

## **ENVIRONMENT:**

### **Friends of Marino Conservation Park**

Friends of Marino Conservation Park are committed to protecting the Park's remnant coastal heath and returning the remainder of the Park to a natural condition by supporting regeneration and revegetation. The group requested a grant to solarise an area of the former dump at the Marino Conservation Park, in order to reduce weeds and seed source, and screen the dump. The group will then revegetate with locally native species and invite the local community to the planting day. The grant will be used to hire a slasher, level the site and revegetate the area.

## **SPORT & RECREATION:**

### **Warradale Park Tennis Club**

Warradale Park Tennis Club offers a safe, friendly, inclusive and well managed club for community to enjoy the game of tennis. The club has been approached by Tennis SA to become involved in wheelchair tennis, making the Warradale Park Tennis Club one of the few clubs to provide this service. The club committee has identified the need to remove old bulky curtains from inside the clubrooms that obstruct a clear view of the courts, in order to provide a safe space for wheelchair tennis participants. This will enable the club to redirect participants and spectators away from the outside pathway between the courts and clubhouse. The grant will be used to replace the curtains with roller blinds, as well as purchase a water fountain to accommodate for the increase in participants and spectators.
