

**FEES & CHARGES
SCHEDULE
2023/24**

Pricing Policy Document

FEES AND CHARGES SUMMARY 2023/24

The 2023/24 fees and charges are to be set in accordance with Council Policy in relation to user pays principles. The policy directs that Council will levy fees and charges for goods and services on a user pays basis and, where possible to recover the full cost of operating or providing the service or goods. Where it can be demonstrated that members of the community are unable to meet the full cost, concessions may apply.

User charges and statutory fees play an important role in enabling Council to provide a range of specific services and community facilities.

The statutory fees and charges listed may be amended at any time during the financial year. The Fees and Charges Schedule will be updated as statutory charges are amended.

The relevant Divisions and community groups have been consulted in relation to the proposed fees and charges and the following factors have been examined when determining the proposed fees:

- the cost of providing the service, inclusive of overhead costs
- the importance of the service to the community
- market comparison of fees and pricing structures with other enterprises who offer a similar service
- the level of service/facility provided by the City of Marion
- increase in statutory charges set by regulation
