(Appendix B)

GENERAL PURPOSE FINANCIAL REPORT For the year ended 30 June 2014

ANNUAL FINANCIAL STATEMENTS for the year ended 30 June 2014

CERTIFICATION OF FINANCIAL STATEMENTS

I have been authorised by the Southern Region Waste Resource Authority Board to certify the financial statements in their final form. In our opinion:

- the accompanying financial statements comply with the Local Government Act 1999, Local Government (Financial Management) Regulations 2011 and Australian Accounting Standards.
- the financial statements present a true and fair view of the Authority's financial position at 30 June 2014 and the results of its operations and cashflows for the financial year.
- internal controls implemented by the Authority provide a reasonable assurance that the Authority's financial records are complete, accurate and reliablethroughout the financial year.

Mark Hindmarsh

> the financial statements accurately reflect the Authority's accounting and other records.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 1 - SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

1 Basis of Preparation

1.1 Compliance with Australian equivalents to International Financial Reporting Standards This general purpose financial report has been prepared in accordance with Australian equivalents to International Financial Reporting Standards (AIFRS) as they apply to not-for-profit entities, other authoritative pronouncements of the Australian Accounting Standards Board (AASB), Urgent Issues Group Interpretations (UIGs) and relevant South Australian legislation.

The Authority is a Local Government Authority Section 43 Regional Subsidiary under the control of City of Onkaparinga, City of Marion and the City of Holdfast Bay.

1.2 Historical Cost Convention

Except where stated below, these financial statements have been prepared in accordance with the historical cost convention.

1.3 Critical Accounting Estimates

The preparation of financial statements in conformity with AIFRS requires the use of certain critical accounting estimates, and requires management to exercise its judgement in applying the Authority's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are specifically referred to in the relevant sections of this Note.

1.4 Rounding

All amounts in the financial statements have been rounded to the nearest thousand dollars (\$'000).

2 The Local Government Reporting Entity

Southern Region Waste Resource Authority operates as a regional subsidiary pursuant to Section 43 of the SA Local Government Act 1999 and Section 25 of the Local Government Implementation Act, and has its principal place of business at 282 Main South Road, Morphett Vale SA 5162. These financial statements have been prepared for use by the Constituent Councils of the Authority.

3 Income recognition

Income is measured at the fair value of the consideration received or receivable. Income is recognised when the Authority obtains control over the assets comprising the income, or when the amount due constitutes an enforceable debt, whichever first occurs.

4 Cash, Cash Equivalents and other Financial Instruments

Cash Assets include all amounts readily convertible to cash on hand at the Authority's option with an insignificant risk of changes in value with a maturity of three months or less from the date of acquisition.

Receivables are generally unsecured and do not bear interest.

All receivables are reviewed as at the reporting date and adequate allowance made for amounts the receipt of which is considered doubtful.

All financial instruments are recognised at fair value at the date of recognition. A detailed statement of the accounting policies applied to financial instruments forms part of Note 10.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 1 - Significant Accounting Policies (cont)

5 Infrastructure, Property, Plant & Equipment

All non-current assets purchased or constructed are capitalised as the expenditure is incurred and depreciated as soon as the asset is held "ready for use".

5.1 Initial Recognition

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition, including architects' fees and engineering design fees and all other costs incurred. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Authority includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overhead.

Capital works still in progress at balance date are recognised as other non-current assets and transferred to infrastructure, property, plant & equipment when completed ready for use.

5.2 Materiality

Assets with an economic life in excess of one year are only capitalised where the cost of acquisition exceeds materiality thresholds established by Authority for each type of asset. In determining (and in annually reviewing) such thresholds, regard is had to the nature of the asset and its estimated service life. No capitalisation threshold is applied to the acquisition of land or interests in land.

Capitalisation threshold applied of \$1,000 for all asset classes. Any purchases greater than this amount are capitalised and depreciated on the Authority's asset register.

5.3 Subsequent Recognition

Certain asset classes are revalued on a regular basis such that the carrying values are not materially different from fair value. For infrastructure and other asset classes where no active market exists, fair value is determined to be the current replacement cost of an asset less, where applicable, accumulated depreciation calculated on the basis of such cost to reflect the already consumed or expired future economic benefits of the asset. Further detail of existing valuations, methods and valuers are provided at Note 5.

5.4 Depreciation of Non-Current Assets

Other than land, all infrastructure, property, plant and equipment assets recognised are systematically depreciated over their useful lives in a manner which reflects the consumption of the service potential embodied in those assets.

Depreciation is recognised on a straight-line basis. Major depreciation periods for each class of asset are shown below. Depreciation on Landfill Construction assets are amortised proportionately to the rate of filling based upon the projected remaining airspace of landfill cells as at the beginning of the reporting period. The Authority annually assesses the remaining airspace of landfill cells and accordingly, depreciation and amortisation rates are adjusted to reflect these estimates. Depreciation periods for infrastructure assets have been estimated based on the best information available to the Authority, but appropriate records covering the entire life cycle of these assets are not available, and extreme care should be used in interpreting financial information based on these estimates.

Plant, Furniture & Equipment

Buildings

Infrastructure:

Waste Facility
Landfill Construction

5 to 10 years 50 years

10 to 15 years

Amortised proportionately to rate of filling

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 1 - Significant Accounting Policies (cont)

5.5 Impairment

Assets that have an indefinite useful life are not subject to depreciation and are reviewed annually for impairment. Assets that are subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount (which is the higher of the present value of future cash outflows or value in use).

For assets whose future economic benefits are not dependent on the ability to generate cash flows, and where the future economic benefits would be replaced if the Authority were deprived thereof, the value in use is the depreciated replacement cost. In assessing impairment for these assets, a rebuttable assumption is made that the current replacement cost exceeds the original cost of acquisition.

6 Payables

6.1 Goods & Services

Creditors are amounts due to external parties for the supply of goods and services and are recognised as liabilities when the goods and services are received. Creditors are normally paid 30 days after the month of invoice. No interest is payable on these amounts.

7 Employee Benefits

7.1 Salaries, Wages & Compensated Absences

Liabilities for employees' entitlements to salaries, wages and compensated absences expected to be paid or settled within 12 months of reporting date are accrued at nominal amounts (including payroll based oncosts) measured in accordance with AASB 119.

Liabilities for employee benefits not expected to be paid or settled within 12 months are measured as the present value of the estimated future cash outflows (including payroll based oncosts) to be made in respect of services provided by employees up to the reporting date. Present values are calculated using government guaranteed securities rates with similar maturity terms.

An accrual is recognised for sick leave only to Landfill employees and is recognised once staff accrue 3 weeks worth of entitlements. Any liability is payable annually upon request. For all other employees, no accrual is made for sick leave as the Authority's experience indicates that, on average, sick leave taken in each reporting period is less than the entitlement accruing in that period, and this experience is expected to recur in future reporting periods.

The Authority recognises all presently entitled liabilities as current liabilities regardless of whether it is expected to be paid within the preceding 12 months of reporting date.

7.2 Superannuation

The Authority makes employer superannuation contributions in respect of its employees to the Local Government Superannuation Scheme. The Scheme has two types of membership, each of which is funded differently.

Accumulation Fund Members

Accumulation fund members receive both employer and employee contributions on a progressive basis. Employer contributions are normally based on a fixed percentage of employee earnings in accordance with Superannuation Guarantee Legislation (9.25% in 2013/14; 9% in 2012/13). No further liability accrues to the employer as the superannuation benefits accruing to employees are represented by their share of the net assets of the Fund.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 1 - Significant Accounting Policies (cont)

7.2 Superannuation (Cont.)

Defined Benefit Members

Defined benefit scheme is where the benefit payable is based on a formula determined by the member's contribution rate, number of years of contribution and final average salary. The Authority makes employer contributions as determined by the scheme's Trustee based on advice from the Scheme's Actuarial. The most recent full actuarial investigation conducted by the Scheme's actuary, A C Miller, FIAA, of Russell Employee Benefits Pty Ltd as at 30 June 2011. The Trustee has determined that the current funding arrangements are adequate for the expected Salarylink liabilities. However, future financial and economic circumstances may require changes to the Authority's contribution rates at some future time.

The Authority also makes contributions to other superannuation schemes selected by employees under the 'choice of fund' legislation. All such schemes are of the accumulation type, where the superannuation benefits accruing to the employee are represented by their share of the new assets of the scheme, and no further liability attaches to the Authority.

8 Rehabilitation

Expenditures relating to ongoing rehabilitation and restoration reduce any provision previously established.

The Authority annually monitors the liability recorded for landfill rehabilitation and restoration estimates and makes adjustments to the liability as required to ensure an accurate projected cost of the liability is showing in the balance sheet. The Authority will be undertaking further detailed reviews of all rehabilitation and restoration liability costs in future years with the assistance of external consultants to ensure all projected costs have been independently verified.

9 Leases

Lease arrangements have been accounted for in accordance with AASB 117.

In respect of finance leases, where the Authority substantially carries all the risks incident to ownership, the leased items are initially recognised as assets and liabilities equal in amount to the present value of the minimum lease payments. The assets are disclosed as assets under lease, and are amortised to expense over the period during which the Authority is expected to benefit from the use of the leased assets. Lease payments are allocated between interest expense and reduction of the lease liability, according to the interest rate implicit in the lease.

In respect of operating leases, where the lessor substantially retains all of the risks and benefits incident to ownership of the leased items, lease payments are charged to expense over the lease term.

10 Inventory

Inventory held by the Authority reflect materials stored on site which have either been purchased or gifted which will be used for future Cell and Capping construction works to be undertaken in future years.

11 GST Implications

In accordance with UIG Abstract 1031 "Accounting for the Goods & Services Tax". Receivables and Creditors include GST receivable and payable. Except in relation to input taxed activities, revenues and operating expenditures exclude GST receivable and payable. Non-current assets and capital expenditures include GST net of any recoupment.

Amounts included in the Statement of Cash Flows are disclosed on a gross basis.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 1 - Significant Accounting Policies (cont)

12 Comparative Information

Comparative information has been reclassified to be consistent with the current year disclosure of equivalent information in accordance with AIFRS.

Annual Leave has this year been disclosed under Provisions for the first time due to the new requirements under AASB 119. In previous year, Annual Leave has been disclosed under Trade & Other Payables. Comparative information has been amended for comparability purposes and this has resulted in no change in the comparative financial position of performance of the Authority.

13 New Accounting Standards

Certain new accounting standards and UIG interpretations have been published that are not mandatory for the 30 June 2014 reporting period and have not been used in preparing these reports.

The Authority is of the view that none of the new standards or interpretations will affect any of the amounts recognised in the financial statements, but that they may impact certain information otherwise disclosed.

14 Valuation of Land and Building Assets

Land and Building assets held by the Authority were valued by Opteon (South Australia) Pty Ltd with an effective valuation date of 30 June 2014 applied for financial reporting purposes. Assets were valued to their market value based on the current zoning of the Onkaparinga Council Development Plan and Environmental Protection Agency (EPA) constraints and assessed market values based on highest and best use.

As a result of the valuation performed, the Authority recorded an impairment of \$3.495 million and has been reflected in Note 6 under 'Impairment' and 'Revaluation Movement' columns,

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 9 - RECONCILIATION OF CASH FLOW STATEMENT

(a) Reconciliation of Cash

The Authority has no bank overdraft facility.

Cash Assets comprise highly liquid investments with short periods to maturity subject to insignificant risk of changes of value. Cash at the end of the reporting period as shown in the Cash Flow Statement is reconciled to the related items in the Statement of Financial Position as follows:

Total cash & equivalent assets Less: Short-term borrowings Balances per Cash Flow Statement	Notes 5	2014 \$'000 18,049 - 18,049	2013 \$'000 16,574 - 16,574

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 10 - FINANCIAL INSTRUMENTS

Recognised Financial Instruments

Bank, Deposits at Call, Short Term Deposits	Accounting Policy: Carried at lower of cost and net realisable value; Interest is recognised when earned.			
	Terms & conditions: Deposits are returning fixed interest rates of 3 - 4% (2013: 3.5 - 4.25%). Short term deposits have an average maturity of 90 days (2013: 90 days).			
	Carrying amount: approximates fair value due to the short term to maturity.			
Receivables - Gate Fees & Associated Charges	Accounting Policy: Carried at nominal values less any allowance for doubtful debts. An allowance for doubtful debts is recognised (and re-assessed annually) when collection in full is no longer probable.			
	Carrying amount: approximates fair value (after deduction of any allowance).			
Liabilities - Creditors and Accruals	Accounting Policy: Liabilities are recognised for amounts to be paid in the future for goods an services received, whether or not billed to the Authority.			
	Terms & conditions; Liablifiles are normally settled on 30 day terms.			
	Carrying amount: approximates fair value,			

Net Fair Value

All carrying values approximate fair value for all recognised financial instruments. There is no recognised market for the financial assets of the Authority.

Risk Exposures

<u>Credit Risk</u> represents the loss that would be recognised if counterparties fail to perform as contracted. The maximum credit risk on financial assets of the Authority is the carrying amount, net of any provision for doubtful debts. All investments are made with the SA Local Government Finance Authority and the ANZ Bank. There is no material exposure to any individual debtor.

<u>Market Risk</u> is the risk that fair values of financial assets will fluctuate as a result of changes in market prices. All of the Authority's financial assets are denominated in Australian dollars and are not traded on any market, and hence neither market risk nor <u>currency risk</u> apply.

<u>Liquidity Risk</u> is the risk that the Authority will encounter difficulty in meeting obligations with financial liabilities. In accordance with the model Treasury Policy (LGA Information Paper 15), liabilities have a range of maturity dates based on cash inflows.

Interest Rate Risk is the risk that future cash flows will fluctuate because of changes in market interest rates. Most of the Authority's financial instruments are at fixed rates. Any such variations in future cash flows will not be material in effect on either the Authority's incomes or expenditures.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 12 - UNIFORM PRESENTATION OF FINANCES

The following is a high level summary of both operating and capital investment activities of the Authority prepared on a uniform and consistent basis. The uniform presentation represents a simplified version of reporting under the Government Finance Statistics (GFS) framework of the Australian Bureau of Statistics.

All Councils in South Australia voluntarily have agreed to summarise annual budgets and long-term financial plans on the same basis.

The arrangements ensure that all Councils provide a common 'core' of financial information, which enables meaningful comparisons of each Council's finances.

	2014 \$'000	2013 \$'000
Operating Revenues /ess Operating Expenses Operating Surplus / (Deficit)	11,121 (9,842) 1,279	12,426 (9,277) 3,149

Net Lending / (Borrowing) for Financial Year	2,931	4,496

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 13 - OPERATING LEASES

Lease payment commitments of the Authority

The Authority has entered into non-cancellable operating leases for the office building premises it currently occupies.

No contingent rentals were paid during the current or previous reporting periods.

No lease imposes any additional restrictions on Authority in relation to additional debt or further leasing.

No lease contains any escalation clause.

Commitments under non-cancellable operating leases that have not been recognised in the financial statements are as follows:

	2014	2013
	\$'000	\$'000
Not later than one year	16	14
Later than one year and not later than 5 years	•	-
Later than 5 years		
	16	14

Note 14 - EVENTS OCCURRING AFTER REPORTING DATE

There were no events subsequent to 30 June 2014 that need to be disclosed in the financial statements.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 15 - CONTINGENCIES & ASSETS & LIABILITIES NOT RECOGNISED IN THE STATEMENT OF FINANCIAL PERFROMANCE

The following assets and liabilities do not qualify for recognition in the Balance Sheet but knowledge of those items is considered relevant to users of the financial report in making and evaluating decisions about the allocation of scarce resources.

1. POTENTIAL INSURANCE LOSSES

The Authority insures against all known insurable risks using a range of insurance policies, each of which is subject to a deductible "insurance excess", the amount of which varies according to the class of insurance.

The Authority has recognised the potential losses arising from claims known at reporting date based on average historical net cost (including insurance excess) of similar types of claims. Other potential claims not reported to the Authority may have existed at reporting date.

2. LEGAL EXPENSES

All known costs have been recognised.

3. "CARBON" TAX

From 1 July 2012 a new tax on emissions of certain 'greenhouse' gases commenced operation. The Authority operates a landfill facility which emits, and will continue to emit gases of this type. Information currently available provides assurances that 'legacy emissions' from garbage placed in landfills prior to the commencement of the tax will not become liable to the tax.

As at the time of preparing the Financial Statements, the Carbon Tax was abolished on 17 July 2014 with it being effective as from 1 July 2014. As greenhouse emissions from the landfill site prior to 1 July 2014 did not exceed minimum levels to cause the Authority to be liable to pay a tax, there is therefore no liability for this tax to be recorded.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 16 - EQUITY ACCOUNTED JOINT VENTURE

Southern Recycling Centre (SRC)

The Authority has enetered into a joint venture arrangement with Integrated Waste Services Pty Ltd to operate the Southern Recycling Centre located on the Authroity's landfill site. This operating commenced in October 2013.

	2014 \$'000	2013 \$'000
The Authority's resepctive interests are:		
- interest in operating result:	50%	-
- ownership of equity	50%	-
the proportion of voting power	50%	-
Movement in Investment in Joint Operation:		
Opening Balance	-	_
New Capital Contributions		-
Share in Operating Result	65	_
Distributions Received		-
Share in Equity of Joint Operation	65	-

Expenditure Commitments

There were no expenditure commitments at reporting date that required to be recognised in the financial statements.

Contingent Liabilities

There were no contingent liabilities at reporting date that required to be recognised in the financial statements.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 17 - FAIR VALUE MEASUREMENTS

The Authority measures and recognises the following assets at fair value on a recurring basis after initial recognition:

Land assets.

The Authority does not subsequently measure any liabilities at fair value on a recurring basis, or any assets or liabilities at fair value on a non-recurring basis.

Fair value hierarchy

AASB 13: Fair Value Measurement requires the disclosure of fair value information according to the relevant level in the fair value hierarchy. This hierarchy categorises fair value measurements into one of three possible levels based on the lowest level that a significant input can be categorised into. The levels are outlined below:

> Level 1 Level 2

Measurements based on quoted Measurements based on inputs Measurements based on prices (unadjusted) in active markets for identical assets or included in Level 1 that are liabilities that the entity can access at the measurement date.

other than quoted prices observable for the asset or liability, either directly or indirectly.

unobservable inputs for the asset or liability.

The fair value of assets and liabilities that are not traded in an active market is determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Authority selects valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the association are consistent with one or more of the following valuation approaches:

- Market approach: uses prices and other relevant information generated by market transactions involving identical or similar assets or liabilities.
- Income approach: converts estimated future cash flows or income and expenses into a single current (i.e. discounted) value.
- Cost approach: reflects the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Authority gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data are not available and therefore are developed using the best information available about such assumptions are considered unobservable.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS for the year ended 30 June 2014

Note 17 - FAIR VALUE MEASUREMENTS (Cont.)

The following tables provide the fair values of the Authority's assets measured and recognised on a recurring basis after initial recognition, categorised within the fair value hierarchy.

	Note	Level 1	Level 2	Level 3	Total
		\$	\$	\$	\$
2014					
Recurring fair value measurements

Total financial assets recognised at					
fair value			4,724	-	4,724

(b) Disclosed fair value measurements

The following table provides the level of the fair value hierarchy within which the disclosed fair value measurements are categorised in their entirety and a description of the valuation technique(s) and inputs used.

	Fair Value Hierarchy Level	Valuation Technique	Inputs Used
There has been no change in the valuation technique(s) used to calculate the fair values disclosed in the financial statements.	2	Market Value	Observable sales of similar properties – both vacant land and land with improvements

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SOUTHERN REGION WASTE RESOURCE AUTHORITY

Report on the Financial Report

We have audited the accompanying financial report of the Southern Region Waste Resource Authority ("the Authority"), which comprises the balance sheet as at 30 June 2014 and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information and the statement by the Executive Officer.

Board's Responsibility for the Financial Report

The Board of the Authority are responsible for the preparation and fair presentation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Local Government Act 1999 and the Local Government (Financial Management) Regulations 1999. Financial reporting requirements of the company's constitution and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the Board also state, in accordance with Accounting Standard AASB 101: Presentation of Financial Statements, that the financial statements comply with the Australian equivalents to International Financial Reporting Standards (AIFRS).

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Australian professional ethical pronouncements and the requirements of the Local Government Act 1999 and the Local Government (Financial Management) Regulations 1999 made under that Act.

153 Flinders Street Adelaide SA 5000 GPO Box 2163 Adelaide SA 5001

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF **SOUTHERN REGION WASTE RESOURCE AUTHORITY (CONT)**

Auditor's Opinion

In our opinion:

- (i) the financial report presents fairly, in all material respects, the financial position of the Southern (a) Region Waste Resource Authority as at 30 June 2014, and its financial performance and its cash flows for the financial year then ended; and
 - (ii) complies with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Local Government Act 1999 and the Local Government (Financial Management) Regulations 1999; and
- the financial report also complies with Australian equivalents to International Financial Reporting Standards as disclosed in Note 1.

We have obtained all of the information and explanations required from the Authority.
