ONGOING MAINTENANCE

Once installed, it is the responsibility of the property owner to repair and/or maintain the verge development in a safe and serviceable condition at all times. This maintenance responsibility also extends to all existing driveway inverts, and crossovers.

COSTS

All costs involved with the verge development or alteration of a verge (including alteration of any Council infrastructure) are to be borne by the property owner. Further, works associated with the relocation/alteration of non-Council (e.g. SAPN, SA Water) services or other constraints must be arranged by the property owner through those relevant authorities and may result in separate costs, payable to those authorities.
